Reimagining Business Horizons through Computer-Driven Methods Prof. (Dr.) Savita Mohan,Dr. Rajesh Kumar Pathak,2025-06-05 **Being at Work** Mark Cole,2025-11-18 This thought provoking and ground breaking book offers a way for us all to consider our experience of being at work and of the nature of working life Written in an engaging and accessible style it presents the practical means by which to apply central features of existentialism to make sense of how we relate to work and the workplace These include topics such as freedom and choice looking for purpose and making meaning and authenticity We spend a great deal of time at work and being at work is often a challenge Reference to the past in a corporate context tends to see it as a graveyard for errors and failures the future is something articulated by senior leaders and the place to which we are expected to travel in terms of their definition The specious present is the place where we experience our being in the moment the location where we do our work but it is rarely acknowledged in the places where we work This book offers new insights into how we can all meaningfully live our lives in the context of the world of work To do this it offers a personalised understanding of the existentialist way of philosophising It looks to simplify complex concepts in order to offer the reader a different way of thinking about the time that they spend at work and how they might consider different and more positive ways of being in such an environment It recognises that we spend a considerable amount of our life in the workplace and so argues that we need to consider that and find ways in which to make that experience personally

meaningful Where other practices designed to help people to make sense of their actual experience are introspective existentialism is reflexive and active Similarly where those other approaches are deeply individualistic existentialism constantly reminds us that our choices are undertaken in relation to others and that they have a collective implication Whether you are keen to make sense of your experience of workplace and what it means to be a human being in that context or looking to explore how you embrace the challenges of being a leader in business this book will offer you rich perspectives for sense making and ways of rethinking your presence at work Everyday Automation Sarah Pink, Martin Berg, Deborah Lupton, Minna Ruckenstein, 2022-05-09 This Open Access book brings the experiences of automation as part of quotidian life into focus It asks how where and when automated technologies and systems are emerging in everyday life across different global regions What are their likely impacts in the present and future How do engineers policy makers industry stakeholders and designers envisage artificial intelligence AI and automated decision making ADM as solutions to individual and societal problems How do these future visions compare with the everyday realities power relations and social inequalities in which AI and ADM are experienced What do people know about automation and what are their experiences of engaging with actually existing AI and ADM technologies An international team of leading scholars bring together research developed across anthropology sociology media and communication studies and ethnology which shows how by rehumanising automation we can gain deeper understandings of its societal impacts The Open Access version of this book available at [http www taylorfrancis com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4 0 license *Saturday Review* ,1970 **National Stockman and Farmer** ,1908 **The National Review, China** ,1912 **Automatic Documentation and Mathematical Linguistics** ,2002 **National Review** ,1912 *The Northwestern Miller* ,1920 Macworld ,1986 **Scientific American** ,1873 Monthly magazine devoted to topics of general scientific interest **The United States Army and Navy Journal and Gazette of the Regular and Volunteer Forces** ,1910 **The Christian Union** ,1871 **The Plumbers Trade Journal** ,1919
