Fabozzi, 2025-04-22 A groundbreaking comprehensive exploration of how FinTech innovation is reshaping finance. Technological innovation has shaped the role of finance since the introduction of the ATM in the 1960s but never more consequentially than by the massive digital revolution in the financial services industry known as FinTech. The Economics of FinTech is a comprehensive introduction to this rapidly evolving and increasingly important domain and a groundbreaking exploration of how FinTech is reshaping finance. Michael Imerman and Frank Fabozzi distill the dynamic developments of this multidisciplinary field into a cohesive accessible guide that covers the economic underpinnings of FinTech innovation framed within the established principles of financial intermediation, management theory and data science. Coverage includes in depth analysis of emerging technologies and innovations across various sectors of financial services as well as the entrepreneurial finance of FinTech such as funding, valuation and startup management. The first book to examine the economic principles of FinTech innovation. Comprehensive coverage of financial technologies across various sectors in financial services. Ideal for undergraduate and graduate students as well as entrepreneurs, investors and finance professionals. Instructor resources include solutions, slides and case studies. [Free Global Cities](#) Christian H. Kälin, 2025-03-20 This book proposes a new solution to the problem of the migration crisis engulfing the world by creating safe harbours or Free Global Cities. In the face of the largest displacement crisis on record, even the most optimistic view of the future suggests that in the years ahead more and more people will migrate in order to survive. The world requires places where refugees and other migrants forced to leave their homes have the opportunity to work, study, create, start businesses and rebuild new lives for themselves and their families. Free Global Cities can deal with this growing global crisis in a completely new way. They are autonomous self-governed subnational entities that provide a safe environment and rule of law that will create wealth and prosperity for its residents as well as for the nations hosting them. Such a model would contribute significantly to handle the largest migration crisis in history which the world will be experiencing in the coming decades.
