Transforming Special Education Through Artificial Intelligence Walters, Annette G., 2024-10-25 Special education encounters distinct challenges in delivering personalized and practical assistance to students with disabilities Educators frequently require support to address the varied needs of these students resulting in learning and development gaps Moreover early identification and catering to these needs can take time and effort affecting students long term academic success There is an urgent need for innovative solutions that can bridge these gaps and improve the educational experiences of students with disabilities *Transforming Special Education Through Artificial Intelligence* offers a comprehensive exploration of how Artificial Intelligence AI can transform special education by providing personalized and individualized support for students with disabilities Through case studies and real life examples we demonstrate how AI can analyze data to tailor learning experiences and most importantly identify learning difficulties early This crucial aspect of AI can significantly enhance communication among stakeholders and reassure them about the potential of AI in improving educational outcomes for students with disabilities

Teaching Grammar in the English Language Classroom Gusti Astika, 2025-08-24 *Teaching Grammar in the English Language Classroom From Theory to Practice* is a comprehensive guide for educators seeking to bridge the gap between grammar theory and effective classroom practice This book explores grammar not merely as a set of rules to be memorized but as a dynamic tool for communication and language development Grounded in both traditional and contemporary approaches it provides teachers with the knowledge strategies and practical tools to teach grammar in engaging meaningful ways The book begins by defining grammar and its essential components morphology syntax and patterns highlighting its central role in language competence and its interplay with reading writing speaking and listening It then explores key theories of grammar acquisition from behaviorist drills to cognitive processing

Krashen's Input Hypothesis, Swain's Output Hypothesis, usage-based approaches and sociocultural perspectives helping teachers understand how learners internalize grammatical structures. Practical approaches to teaching grammar are presented with clarity, including deductive and inductive methods, focus on form versus focus on meaning, explicit and implicit instruction, and task-based learning models. The book emphasizes integrating grammar into communicative language teaching using techniques such as dictogloss, input enhancement, and information gap tasks to balance accuracy with fluency. Innovative tools and methods are explored, including corpus-based instruction, data-driven learning, technology-enhanced teaching, AI-supported feedback, and gamified activities. Detailed guidance is provided on selecting and sequencing grammar content, designing lessons, assessing grammar knowledge, and tailoring instruction for diverse learner groups, from young learners to academic English students. Beyond methods and tools, the book encourages reflective practice, offering strategies for lesson reflection, action research, peer observation, and professional growth. It also situates grammar teaching within contemporary frameworks, including CEFR standards, CLIL, genre-based approaches, and systemic functional linguistics. Finally, the book looks ahead to the future of grammar teaching, highlighting trends such as adaptive learning, multimodal instruction, and AI-supported personalization, urging educators to rethink grammar as patterning for meaning in an ever-evolving classroom. Designed for pre-service and in-service teachers, teacher educators, and curriculum developers, *Teaching Grammar in the English Language Classroom: From Theory to Practice* is both a practical handbook and an inspiring guide, equipping teachers to foster confident, competent, and communicative language learners.

Artificial Intelligence in STEM Education Fan Ouyang, Pengcheng Jiao, Bruce M. McLaren, Amir H. Alavi, 2022-12-29 Artificial intelligence (AI) opens new opportunities for STEM education in K-12, higher education, and professional education contexts. This book summarizes AI in education, AIED, with a particular focus on the research practice and technological paradigmatic shifts of AIED in recent years. The 23 chapters in this edited collection track the paradigmatic shifts of AIED in STEM education, discussing how and why the paradigms have shifted, explaining how and in what ways AI techniques have ensured the shifts, and envisioning what directions next-generation AIED is heading in the new era. As a whole, the book illuminates the main paradigms of AI in STEM education, summarizes the AI-enhanced techniques and applications used to enable the paradigms, and discusses AI-enhanced teaching, learning, and design in STEM education. It provides an adapted educational policy so that practitioners can better facilitate the application of AI in STEM education.
