Desperately Seeking Solutions Rationing Health Care:

Desperately Seeking Solutions David J. Hunter, 2018-10-08 Following the Governments health reforms in 1991 rationing has been put firmly on the agenda This book identifies and clarifies the numerous political and ethical issues surrounding rationing in healthcare Drawing upon international examples it offers a critical overview of the approaches to rationing and makes practical proposals for its management Desperately Seeking Solutions challenges the assumption that all health services are inherently subject to rationing as demand invariably outstrips supply and examines this within a comparative framework The author critically evaluates the extent to which rationing has always existed and should exist within the NHS although until recently it operated on an implicit rather than explicit basis and was bound up with clinical judgements rather than purely financial considerations The author questions whether calls for explicit rationing are actually desirable and potentially feasible *The Health Debate* Hunter, David J., 2016-01-13 Health care systems everywhere face multiple pressures from changing demography the rise of non communicable disease the growing demand on health services and limited resources at a time of austerity Focusing on the British NHS from a political science perspective this second edition of this best selling book offers a fresh look at how it is coping with such pressures The book explores the complexity of health policy and health services offering a critical perspective on concerns including integrated care the return of public health to local government and moves to devolve health services to local level Crucially it offers a critique of the market style changes introduced by the Coalition government between 2010 and 2015 Students of health care and health policy policy makers and public health and health care professionals will find this lively and accessible reassessment of NHS reforms invaluable *The New Politics of the NHS, Seventh Edition* Rudolf Klein, 2019-05-20 The New Politics of the NHS has become established over 30 years as the key overview of the NHS its processes and paths of influence The seventh edition remains a clear easy to read guide to often complex debates It encompasses both the background of the evolution of the NHS since its foundation and a completely up to date picture of its prese **In Search of Legitimacy** Ingolfur Blühdorn, 2009-07-22 In European societies social differentiation value pluralism and international integration have brought about a condition of previously unknown complexity Citizens expectations regarding political participation and the legitimization of government policy are rising yet the capacities for social integration and political consensus formation may be in decline This volume investigates how political actors and institutions in established European democracies are seeing to manage the condition of complexity and how this condition reconfigures the foundations of democratic politics From the Contents Legitimacy Crises Efficiency Gaps Democratic Deficits Efficiency versus Democracy Conceptual Reconciliation of a Troubled Relationship Citizens Expectations Is what matters only what works Re engaging Citizens Institutional Responses to Political Disengagement Informal Government Delegated Authority Legitimizing Independent Regulatory Agencies Delegation to the EU The Open Method of Co ordination OMC and The European Employment Strategy Committee
