Desperately Seeking Ethics:

Desperately Seeking Ethics Howard Good, 2003 Not just another media ethics book this engaging and unconventional text breaks away from the usual practice of presenting the ethical theories of well known philosophers in watered down form Instead the contributors select a poem movie song speech or other cultural document analyze it for implied or explicit ethical lessons and then apply the lessons to a specific case that involved controversial media conduct

Desperately Seeking Ethics Howard Good, 2004-09-08 Trends prevailing in the media suggest a seemingly disintegrating concept of media ethics It is no surprise being ethical is hard work and could very well put a person in conflict with prevailing trends Many of the people cited within the 13 essays of *Desperately Seeking Ethics* illustrate this from Socrates and Martin Luther King Jr who both died for their principles to reporter David Kidwell of the Miami Herald who chose jail over testifying for the prosecution in a murder trial This is not just another media ethics book Engaging and non conventional it breaks away from the usual text practice of presenting the ethical theories of well known philosophers in watered down form Instead the contributors all of whom teach media ethics select a poem movie song speech or other cultural document analyze it for implied or explicit ethical lessons and then apply the lessons of that work to a specific case that involved controversial media conduct In addition to endnotes each chapter contains questions for discussion and a list of further readings Where possible the contributors have included all or part of the poems speeches and other documents they analyze as sources of ethical instruction and inspiration

APAIS 1991: Australian public affairs information service , *Making Hard Choices in Journalism Ethics* David E. Boeyink, Sandra L. Borden, 2010-04-05 This book teaches students how to make the difficult ethical decisions that journalists routinely face By taking a case based approach the authors argue that the best way to make an ethical decision is to look closely at a particular situation rather than looking first to an abstract set of ethical theories or principles This book goes beyond the traditional approaches of many other journalism textbooks by using cases as the starting point for building ethical practices Casuistry the technical name of such a method develops provisional guidelines from the bottom up by reasoning analogically from an easy ethical case the paradigm to harder ethical cases Thoroughly grounded in actual experience this method admits more nuanced judgments than most theoretical approaches

The Organ Shortage Crisis in America Andrew Michael Flescher, 2018 Nearly 120 000 people are in need of healthy organs in the United States Every ten minutes a new name is added to this list while each day eight people die waiting for an organ to become available Worse the gap between those in need of an organ and the number of available donors is growing our traditional reliance on cadaveric organ donation is insufficient and in recent years there has been a decline in the number of living donors as well as in the percentage of living donors relative to overall kidney donors Some transplant surgeons and policy advocates suggest a market solution and legalizing the sale of organs Andrew Michael Flescher objects to this approach citing concerns about social justice commodification and patient safety Given that what is the most efficacious means of attracting prospective living kidney donors Flescher drawing on scores of interviews with donors and patients suggests that inculcating a sense of altruism and civic duty is a more effective means of increasing donor participation than purely financial incentives He encourages individuals to spend time with patients on dialysis advocating donor chains in order to facilitate relationships between donors and recipients and creating sacred spaces in hospitals such as a wall of heroes to recognize those who sacrifice their body parts for others
