## **Despotism And Democracy The Great Modern Contest:**

Despotism and Democracy Bernard Wisby, 2002-10-01 a collection of ten short highly readable essays about major themes in world history of the past century The overarching motif is the spread of Western ideals and institutions over the globe after 1900 and the ensuing contests between democratic and despotic governments to control that world P 4 of cover *The national Church of a Christian nation. Extra prize essay, Peek competition, 1872* William Arnold Mathews, 1886 *The Intellectual Legacy of Michael Oakeshott* Corey Abel, Timothy Fuller, 2017-02-09 This volume brings together a diverse range of perspectives reflecting the international appeal and multi disciplinary interest that Oakeshott now attracts The essays offer a variety of approaches to Oakeshott s thought testament to the abiding depth originality suggestiveness and complexity of his writings The essays include contributions from well known Oakeshott scholars along with ample representation from a new generation As a collection these essays challenge Oakeshott s reputation as merely a critic of social planning Contributors include Josiah Lee Auspitz Debra Candreva Wendell John Coats Jr Douglas DenUyl George Feaver Paul Franco Richard Friedman Timothy Fuller Robert Grant Eric S Kos Leslie Marsh Kenneth Minogue Terry Nardin Keith Sutherland Martyn Thompson and Gerhard Wolmarans Parliamentary Debates New Zealand. Parliament. House of Representatives, 1881 **Parliamentary Debates** New Zealand. Parliament, 1881 **Progress**, 1899 Progress - Issued Monthly by the University Association in the Interests of University and Worlds Congress Extension, 1899 The Politician, 1846 **Value and Context** Alan Thomas, 2006-07-27 Alan Thomas presents an original study of the status of value and its relation to the contexts in which evaluative claims are justified He articulates and defends the view that human beings do possess moral and political knowledge but that it is historically and culturally contextual knowledge in ways that say mathematical or chemical knowledge is not His exposition of a cognitivist contextualism in ethics and politics builds upon contemporary work in epistemology moral philosophy and political theory to fashion an argument that is relevant to current debates about culture modernity and relativism **The Individual and the Political Order** Norman E. Bowie, Robert L. Simon, 2008 This fourth edition of *The Individual and the Political Order* provides a careful accessible and reasoned liberal justification for the democratic state and political authority The central feature of liberalism is the commitment to individual autonomy The authors show how that commitment provides a defense of democracy and they give a liberal interpretation to such core values as liberty equality and political authority Although the authors support liberal theory they also provide a sympathetic treatment of the critics of liberalism The authors give a sound explanation of such positions as feminist political theory communitarianism and post modernism but they also argue persuasively that these theories fall short as adequate theories of the political order A significant feature of the new edition is the treatment of international issues and globalization particularly the war on terrorism and poverty in the third world This edition retains its balanced treatment of such major theorists as Hobbes Locke Rousseau Rawls and in this edition Marx This edition continues the tradition of

readability balance and careful argumentation that characterized the earlier editions *The Individual and the Political Order* is accessible to a wide audience and to nearly all individuals who are interested in how citizens in a state should be governed
