## **Dessau Aid Bauhaus:**

*Dessau Aid Bauhaus* Dennis Sharp, 2002-03-19 The Dessau Bauhaus encapsulates the ethos of that design school's revolutionary new thinking. With its interlocking cubic forms, reinforced concrete frame and glass curtain walls, it was the first large building to crystallise modern movement. *A World History of Architecture* Marian Moffett, Michael W.

Fazio, Lawrence Wodehouse, 2003 The Roman architect and engineer Vitruvius declared *firmitas utilitas and venustas* – firmness, commodity and delight – to be the three essential attributes of architecture. These qualities are brilliantly explored in this book, which uniquely comprises both a detailed survey of Western architecture, including Pre-Columbian America and an introduction to architecture from the Middle East, India, Russia, China and Japan. The text encourages readers to examine closely the pragmatic, innovative and aesthetic attributes of buildings and to imagine how these would have been praised or criticized by contemporary observers. Artistic, economic, environmental, political, social and technological contexts are discussed so as to determine the extent to which buildings met the needs of clients, society at large and future generations.

**Bauhaus Women** Elizabeth Otto, Patrick Rössler, 2019-03-21 Forty-five key women of the Bauhaus movement. Bauhaus Women: A Global Perspective reclaims the other half of Bauhaus history, yielding a new understanding of the radical experiments in art and life undertaken at the Bauhaus and the innovations that continue to resonate with viewers around the world today. The story of the Bauhaus has usually been kept narrow, localised to its original time and place and associated with only a few famous men such as Walter Gropius, Marcel Breuer, Paul Klee, Wassily Kandinsky and László Moholy-Nagy. Bauhaus Women: A Global Perspective bursts the bounds of this slim history by revealing fresh Bauhaus faces. Forty-five Bauhaus women unjustifiably forgotten by most history books. This book also widens the lens to reveal how the Bauhaus drew women from many parts of Europe and beyond and how, through these cosmopolitan female designers, artists and architects, it sent the Bauhaus message out into the world and to a global audience. **Photographic Architecture in the Twentieth**

**Century** Claire Zimmerman, 2014-05-01 One hundred years ago, architects found in the medium of photography so good at representing a building's lines and planes a necessary way to promote their practices. It soon became apparent, however, that photography did more than reproduce what it depicted. It altered both subject and reception, as architecture in the twentieth century was enlisted as a form of mass communication. Claire Zimmerman reveals how photography profoundly influenced architectural design in the past century, playing an instrumental role in the evolution of modern architecture. Her picture anthropology demonstrates how buildings changed irrevocably and substantially through their interaction with photography, beginning with the emergence of mass-printed photographically illustrated texts in Germany before World War II and concluding with the postwar age of commercial advertising. In taking up photographic architecture, Zimmerman considers two interconnected topics: first, architectural photography and its circulation; and second, the impact of photography on architectural design. She describes how architectural photographic protocols developed in Germany in the early twentieth

century expanded significantly in the wartime and postwar diaspora and accelerated dramatically with the advent of postmodernism In modern architecture she argues how buildings looked and how photographs made them look overlapped in consequential ways In architecture and photography the modernist concepts that were visible to the largest number over the widest terrain with the greatest clarity carried the day This richly illustrated work shows for the first time how new ideas and new buildings arose from the interplay of photography and architecture transforming how we see the world and how we act on it

**Graphic Design** Stephen J. Eskilson, 2019-05-21 A classic and indispensable account of graphic design history from the Industrial Revolution to the present Now in its third edition this acclaimed survey explores the evolution of graphic design from the 19th century to the present day Following an exploration of design's prehistory in ancient civilizations through the Industrial Revolution author Stephen J. Eskilson argues that modern design as we know it grew out of the influence of Victorian age reformers He traces the emergence of modernist design styles in the early 20th century examining the wartime politicization of regional styles Richly contextualized chapters chronicle the history of the Bauhaus and the rise of the International Style in the 1950s and 60s and the postmodern movement of the 1970s and 80s Contemporary considerations bring the third edition up to date with discussions of app design social media emojis big data visualization and the use of animated graphics in film and television The contemporary phenomenon of the citizen designer professionals who address societal issues either through or in addition to their commercial work is also addressed highlighting protagonists like Bruce Mau and the Center for Urban Pedagogy This edition also features 45 additional images an expanded introduction and epilogue and revised text throughout A newly redesigned interior reinforces the fresh contents of this now classic volume

*Stories of Traumatic Pasts* Marina Gržinić, Jovita Pristovšek, Sophie Uitz, Christina Jauernik, 2020-01-01 Belgischer Kolonialismus im Kongo Antisemitismus in Österreich Turbo Nationalismus im ehemaligen Jugoslawien diese drei historischen Stränge von Gewalt und Vernichtung erzwangen und stützten einen Prozess des Vergessens der bis heute eine Aufarbeitung der durch sie verursachten Genozide verhindert Heute droht eine unfreiwillige oder ausgeübte Amnesie all das zu zerstören was bereits in Hinblick auf ein mögliches Zusammenleben erreicht wurde Der Ausstellungskatalog geht zu diesen traumatischen Ereignissen der Geschichte sowie der jüngsten Vergangenheit mit ihrer zerstörerischen Wirkung auf Gemeinschaften und Völkern Staaten und Territorien zurück und stellen sie einem System von Interventionen gegenüber Die nach Gräueltaten zurückbleibenden Narben sind zwar oft versteckt und ausgelassen lassen sich aber durch künstlerische wissenschaftliche und politische Reflexionen zurückholen
