Deterrence In The Middle East Where Theory And Practice Converge:

Deterrence in the Middle East Aaron S. Klieman,Ariel Levite,1993-01-01 A collection of essays which emerged from an international symposium of modern deterrence strategy held in 1991 at Tel Aviv University in the direct aftermath of the Gulf War Deterrence in the Middle East Aaron S. Klieman,Ariel Levite,1993 *Concepts of Non-Provocative Defence* G. Wiseman,2001-12-18 This book examines the viability of non provocative defence the controversial idea that defensive military policies and practices reduce the risk of wars and provide a viable basis for defending a society should war break out Drawing on case studies from Europe the 1991 Persian Gulf War and Asia Pacific the author concludes that non provocative defence concepts remain relevant and that they can help in deterring conducting and settling wars *The National Security of Small States in a Changing World* Efraim Inbar,Gabriel Sheffer,2013-09-13 The first part of this book is primarily devoted to analysing the impact of the system of international relations on the fortunes of small states The second part discusses the question what changes in the national strategy of small states are necessary in view of the new international system The authors of this volume come from various parts of the world and espouse differing outlooks Nevertheless they were able to coalesce around a similar theme in an effort to contribute to the international understanding of the special challenges that confront the world s small states What Causes War? Greg Cashman,2013-07-29 Now in a thoroughly revised and updated edition this classic text presents a comprehensive survey of the many alternative theories that attempt to explain the causes of interstate war For each theory Greg Cashman examines the arguments and counterarguments considers the empirical evidence and counterevidence generated by social science research looks at historical applications of the theory and discusses the theory s implications for restraining international violence Among the questions he explores are Are humans aggressive by nature Do individual differences among leaders matter How might poor decision making procedures lead to war Why do leaders engage in seemingly risky and irrational policies that end in war Why do states with internal conflicts seem to become entangled in wars with their neighbors What roles do nationalism and ethnicity play in international conflict What kinds of countries are most likely to become involved in war Why have certain pairs of countries been particularly war prone over the centuries Can strong states deter war Can we find any patterns in the way that war breaks out How do balances of power or changes in balances of power make war more likely Do social scientists currently have an answer to the question of what causes war Cashman examines theories of war at the individual substate nation state dyadic and international systems level of analysis Written in a clear and accessible style this interdisciplinary text will be essential reading for all students of international relations **Culture and Security** Keith R. Krause,2012-11-12 A comprehensive and empirically rich set of case studies that examine the impact of socio cultural influences on multilateral arms control and security building processes around the world **National Threat Perceptions in the Middle East** James Leonard,1995 *The Muslim World Book Review* ,1995 **Non-offensive Defence in the Middle East?** Bjørn Møller,1998 **Bulletin**

of Regional Cooperation in the Middle East ,1993 **Index of Islamic Literature** ,1995 **Index Islamicus** ,1995 *Journal of Palestine Studies* ,1996 **Middle Powers and Accidental Wars** Bernard Fook Weng Loo,2005 The traditional understanding of strategic stability as a condition wherein adversarial states refrain from waging a strategic war is in the first place flawed as it conflates the concept with the wider issue of causes of war it places too great an emphasis on arms racing and crisis management and it has focused too much on nuclear strategy This study situates the concept directly with the phenomena of accidental or inadvertent wars and proposes an understanding of strategic stability as a condition wherein policy makers do not feel pressured into knee jerk decisions concerning the use of military force This study proposes a framework of conventional strategic stability It includes a geographic and strategic cultural milieu that frames the processes by which policy makers and strategic planners identify and assess the threat posed by potential adversaries It directs attention away from armaments to other military strategic factors such as interpretations of strategic doctrines and intelligence and early warning processes how domestic and external political conditions provide clues as to how and why strategic stability either maintains or fails because decisions for war are ultimately political in nature **Israel's Foreign Relations: 1992-1994** ,1976 Research Paper ,1988 **Israel's Foreign Relations** ,1995 *Index to Jewish Periodicals* ,1995 An author and subject index to selected and American Anglo Jewish journals of general and scholarly interests The Israel-syria Armistice Regime, 1949-1955 Aryeh Shalev,1994-06-09 A portrayal of a period in which Israel and Syria not only actively co operated in solving problems related to their coexistence but also advanced detailed peace proposals **Cross-cultural Dimensions of Multilateral Non-proliferation and Arms Control Dialogues** Canada. Non-Proliferation, Arms Control and Disarmament Division,1997 The papers compiled in this report attempt to determine under what conditions and to what extent cultural factors make a difference in the elaboration and execution of non proliferation arms control and disarmament NACD policies They seek to clarify a concept of security cultures that draws upon the diplomatic political strategic and social elements that go into security policy making Culture as it refers to NACD issues consists of those enduring and widely shared beliefs traditions attitudes and symbols that inform the ways in which a state s or society s interests and values with respect to security stability and peace are perceived articulated and advanced by political actors and elites The papers cover a range of states and regions south east Asia China India Latin America and the Middle East Each examines a range of concrete issues and cases connected with NACD issues and orientations towards security more generally
