Detotalized Totalities Synthesis And Disintegration In Naturalist Existential And Socialist Fiction:

Detotalized Totalities L. S. Dembo,1989 *Detotalized Totalities* L. S. Dembo,1989-01-01 Fictional Realism in Twentieth-century China Dewei Wang,1992 Although deconstruction has become a popular catchword as an intellectual movement it has never entirely caught on within the university For some in the academy deconstruction and Jacques Derrida in particular are responsible for the demise of accountability in the study of literature Countering these facile dismissals of Derrida and deconstruction Herman Rapaport explores the incoherence that has plagued critical theory since the 1960s and the resulting legitimacy crisis in the humanities Against the backdrop of a rich informed discussion of Derrida s writings and how they have been misconstrued by critics and admirers alike *The Theory Mess* investigates the vicissitudes of Anglo American criticism over the past thirty years and proposes some possibilities for reform Detotalized Totalities L. S. Dembo,1989 **Imaginary Communities** Phillip E. Wegner,2002-06-04 *Imaginary Communities* is a beautiful treatment of utopian narratives as the quintessential genre for figuring social space in the modern nation state Wegner demonstrates a wide ranging yet lighthanded philosophical learnedness an urgent political conscience and a deeply historical sense that narrative utopias are like specters that haunt particular moments of upheaval crisis and contradiction within modernity whether the threshold between the vestiges of feudal agrarian society and early modern English capitalism conflicts between the new oligarchy of industrializing late 19th c United States and the increasing militancy of the labor movement the uneven successes and failures of the Russian Revolution of 1905 or the mid century Cold War struggles Lisa Lowe author of *Immigrant Acts On Asian American Cultural Politics* In this important book Wegner argues that the historical work done by utopian narratives should be reconsidered interrogated challenged and continued Insightful and provocative *Imaginary Communities* will prove a valuable contribution to our thinking about the politics of imagination Daniel Cottom author of *Cannibals and Philosophers Bodies of Enlightenment* Phillip Wegner s *Imaginary Communities* represents a major intervention in our understanding not merely of utopian literature but the very ways in which we view our world His concept of utopian narrative as both vision and practice as participating in real worlds a force for change rooted in the social world as it is and as it is becoming and is imagined succeeds wonderfully well his notion of the imperative of failure as a resource of hope is deeply humane He provides a body of work worth thinking through and thinking with As a historian I find the historicity of his approach the literary arch spanning from the origins of the European nation state to our global present and future compelling in its ambition and execution Wegner moves well beyond the more tired moves of new historicist literary criticism this is historicist scholarship in a new key James Epstein author of *Radical Expression Political Language Ritual and Symbol in England 1790 1850* **American Literary Realism** ,2004 **The Total Novel in Mexico** Mark Daniel Anderson,2004 Simone de Beauvoir Joan Nordquist,1991 *Object Lessons* Nicholas Daniel Gavrilu,1991 **Twentieth-century Short Story Explication** ,1989 *Twentieth-century Short Story Explication* Warren S.
