Deutsche Führungsschichten In Der Neuzeit:

Germany and the Holy Roman Empire Joachim Whaley, 2011-11-24 Germany and the Holy Roman Empire offers a striking new interpretation of a crucial era in German and European history from the great reforms of 1495-1500 to the dissolution of the Reich in 1806. Over two volumes Joachim Whaley rejects the notion that this was a long period of decline and shows instead how imperial institutions developed in response to the crises of the sixteenth and seventeenth centuries, notably the Reformation and Thirty Years War. The impact of international developments on the Reich is also examined. Volume II begins with the Peace of Westphalia and concludes with the dissolution of the Reich. Whaley analyses the remarkable resurgence of the Reich after the Thirty Years War, which saw the Habsburg emperors achieve a new position of power and influence and which enabled the Reich to withstand the military threats posed by France and the Turks in the later seventeenth century. He gives a rich account of topics such as Pietism and baroque Catholicism, the German enlightenment and the impact on the Empire and its territories of the French Revolution and Napoleon. Whaley emphasizes the continuing viability of the Reich's institutions to the end and the vitality of a political culture of freedom that has been routinely underestimated by historians of modern Germany.

Reformed Majorities in Early Modern Europe Herman J. Selderhuis, J. Marius J. Lange van Ravenswaay, Günter Frank, Ute Lotz-Heumann, Barbara Mahlmann-Bauer, Johannes Schilling, Günther Wassilowsky, Siegrid Westphal, Tarald Rasmussen, Mathijs Lamberigts, Bruce Gordon, David M. Whitford, 2015-03-11 This volume contains the papers of the international RefoRC conference on Reformed Majorities and Minorities in Early Modern Europe as it was organized by the Johannes a Lasco Bibliothek Emden in cooperation with the Faculty of Artes Liberales of the University of Warsaw. The conference took place April 10-12, 2013 in Emden and was part of the research project *Doctrina et Tolerantia* directed by the Johannes a Lasco Bibliothek. The contributions in this volume deal with the question how the relation between doctrine and toleration was dealt with in territories with a Reformed majority. Did the refugee experience of the Reformed make them tolerant or militant? How did official policy relate to everyday practice? Were there different opinions on this issue within the Reformed tradition? The answers to these questions give more insights into the diversity of international Calvinism and the way theory was put into practice.

The Soul of Commerce: Credit, Property, and Politics in Leipzig, 1750-1840 Robert Beachy, 2005-12-01 This volume provides a new interpretation of the social and cultural context that shaped German political reforms from the mid-eighteenth to the mid-nineteenth century. Focusing on Electoral Saxony, the analysis demonstrates how the commercial city of Leipzig shaped the Saxon Enlightenment and then had a powerful influence on reforming the territorial state. The study presents extensive archival research to develop a careful account of Leipzig's social and political history and then argues persuasively that the city played a catalytic role in the introduction of a
