As one of the world's leading oil producers, the outcomes of the most ambitious wave of reforms Saudi Arabia has ever undertaken will provide valuable lessons not only for the kingdom itself but also for other oil dependent and resource based economies. Since 2016 Saudi Arabia has embarked on an unparalleled economic if not social and political transformation project with an ultimate aim of diversifying away from oil. New sources of growth such as tourism industry and entertainment have been identified but it remains to be seen whether these will be enough to sustain the economy in the post oil era. Reforms including lowering energy subsidies instituting VAT and introducing indirect taxes on labor and businesses have already produced notable results. Looking ahead the economy requires rigorous and continuous processes of severe competition amongst its private sector participants as well as strong institutions. It also requires creative destruction to be allowed to run its course within the wider economy. The economic reform experiment undertaken by Saudi Arabia remains the most sweeping among emerging market economies and certainly in the entire Middle East. The changes are all encompassing and involve a complex redrawing of the political, economic, religious and social map      **Designing 21st Century Healthcare** John R. Griffith, 1998 This book examines strategies and techniques for three integrated delivery systems: Henry Ford Health System in Detroit, Michigan; Legacy Health System in Portland, Oregon; and Moses Cone Health System in Greensboro, North Carolina, and uses them to identify the cutting edge in management strategies and techniques. Each case study consists of descriptive information and extended excerpts from interviews with the CEO, a physician executive, and one or more trustees. Editor      **Beacon**, 2001      **Advanced Strategic Planning** Aubrey Malphurs, 2013-06-15 First published in 1999, *Advanced Strategic Planning* explains why planning is so important to carrying out the church's mission. Now in its third edition, this classic resource offers a nine step strategic thinking and acting model, useful ideas for developing a ministry strategy, diagrams to help illustrate concepts, a new section on spiritual formation. The methods in this book are proven to work, having already helped many churches articulate their vision and implement their mission      *The Challenge of Developing a Shared Vision on Democratic Decentralisation and Local Governance in Africa for the 21st Century* D.
