Developing Quality Management and Leadership in South African Schools Branwen Challens, Corné Van der Vyver, 2019 Chapter 9 of the National Development Plan 2030 indicates that human capacity and school management are priorities in basic education in South Africa. The National Development Plan 2030 puts emphasis on learning and teaching as the core business of a school and acknowledges that the main responsibility of a school principal should be to lead the core business of the school. *Developing quality management and leadership in South African schools* provides clear and concise discussion of educational school management and leadership aspects in the current South African context. This textbook addresses contextual issues in the field of educational management and leadership. Glatthorn, 2004-02-17 In this concise well organized guide to developing high quality school curricula Glatthorn blends sound research initiatives and trends with his practical experience as a curriculum consultant to more than one hundred school systems.
