Intelligence in Context Robert J. Sternberg, David D. Preiss, 2022-11-19 This book

reflects on the various ways in which intelligence can manifest itself in the wide range of diverse contexts in which people live Intelligence is often viewed as being tantamount to a score or set of scores on a decontextualized standardized intelligence test But intelligence always acts within a sociocultural context Indeed early theorists defined intelligence in terms of adaptation to the environment in which one lives The tradition of decontextualization is old dating back to the very beginning of the 20th century with the development of the Binet Simon Intelligence Scales This tradition is not only old however but obsolete Because people live in different sociocultural as well as physical environments intelligence can take somewhat different forms in different places and even at different times The chapters in this edited volume show that intelligence viewed in the abstract is a somewhat vacuous concept it needs to be contextualized in terms of people's physical and sociocultural surroundings

Adaptive Intelligence Robert J. Sternberg, 2021-02-04 Adaptive Intelligence is a dramatic reappraisal and reframing of the concept of human intelligence In a sweeping analysis Robert J Sternberg argues that we are using a fatally flawed outdated conception of intelligence one which may promote technological advancement but which has also accelerated climate change pollution the use of weaponry and inequality Instead of focusing on the narrow academic skills measured by standardized tests societies should teach and assess adaptive intelligence defined as the use of collective talent in service of the common good This book describes why the outdated notion of intelligence persists what adaptive intelligence is and how it could lead humankind on a more positive path
