Development Decentralization Democracy:

Development, Decentralization and Democracy Robert Thörlind,2000 This book explores the controversy in political science surrounding the civil society social capital paradigm by studying the performance of decentralized governments in West Bengal and Bangladesh Gram panchayats and NGOs provide the focus of the study The study intends to determine whether a growth in social capital can explain why decentralized governments seem to be more effective in West Bengal though both areas decentralized their governments around the same time The two regions have shared for centuries a common history civic culture ethnic identity and language though religion led to the separation of the regions   *Making Decentralization Work* Ed Connerley,Kent Eaton,Paul J. Smoke,2010 The authors of this volume sift through the accumulating evidence to assess how well decentralization has fared Focusing on consequences rather than causes their goal is to inform future interventions in support of decentralized governance by showcasing some of the important trade offs that it has generated so far   **Democracy, Decentralisation and Development** Henry Maddick,1963 Research report on the functions of government with particular reference to developing countries covers government functions and public administration at both national level and local level levels decentralization incl The contribution thereof to community development etc public servants incl Employment security wages recruitment etc the influence of interest groups incl Political parties tribal peoples etc etc Bibliography pp 266 to 290   *Challenges to Democratic Governance in Developing Countries* Gedeon Mudacumura,Göktuğ Morçöl,2014-01-04 Despite the large amounts of human and financial resources invested to foster democratic governance in developing countries statistics show that the majority of these countries have not yet achieved significant improvements in living standards While some regions make strides towards improving the living conditions of their citizens Sub Saharan Africa for instance is still trapped in poverty with more than 40% of its 600 million people living below the internationally recognized absolute poverty line of one US dollar per day Poor governance and corruption should be highlighted as the most important systemic factors contributing to poverty in developing countries As a result the institutional foundations of these countries are weakened public funds are misappropriated and policies and programs aimed at reducing poverty and fostering sustainable economic growth are undermined It is therefore not surprising that a 2008 Transparency International report found a direct link between corruption and the failure of the societal institutions designed to achieve the Millennium Development Goals in the majority of developing countries This book investigates the problems of democratic governance particularly as they relate to corruption and also whether democracy should be based on universal principles or local context and historical factors It also analyses the rule of law in promoting democratic governance and curbing corruption and if governmental non governmental organizations and civil societies are effective in promoting democratic governance and curbing corruption This book will go beyond identifying the challenges and offer plausible solutions that could be adapted to various developing countries It is premised on the importance of

bridging theory and practice which has been lacking in most local and international development publications making of interest to scholars and policy makers alike concerned with public administration in developing countries **The Roots of Participatory Democracy** M. Williams,2008-05-26 This book compares the Communist parties of India and South Africa in their pursuits of socialist democracy Williams looks at their organizational characteristics party history and their competing tendencies as well as how they have pushed forward their similar ideologies within their unique political and economic environments **Decentralized Democratic Governance in New Millennium** U. B. Singh,2009 *Decentralization, Democracy, and Development in Africa* Jan Erk,2018-12-07 Decentralization reforms introduced to Africa in the 1990s have not always delivered the intended long term outcomes This is a collection on the consequences of these reforms two decades on In addition to general and comparative overviews the book contains case studies on Ghana Senegal Zimbabwe Namibia Ethiopia and Uganda The common theme across the chapters is that the reforms seem to have engendered political consequences beyond decentralization itself mostly through interaction with the broader historical political social and economic context The book thus speaks both to the scholarly literature on decentralization democratization and development and to the community of development practitioners Most of the literature on decentralization and development emphasizes questions of institutional design and policy but here the harder to pin down political patterns marking the workings of decentralization are the main focus of analysis The debates on development through the case studies are connected to the scholarly literatures on comparative federalism comparative decentralization and local democracy The main conclusion that emerges from the studies in the book is that no magic formula that can turn countries into peaceful stable and prosperous democracies overnight exists Furthermore there are risks involved in importing formal institutions without regard to the local historical political social and economic context The chapters of this book were originally published as a special issue in Regional and Federal Studies **Decentralization, Democracy, and Development** World Bank,2009-07-02 The question of whether political fiscal and administrative decentralization improves government effectiveness is hotly debated among researchers and policy makers Decentralization Democracy and Development contributes to the empirical literature on decentralization and the debate on whether it is a viable and desirable state building strategy for post conflict countries This book is a collection of eight papers written by nine authors who were intimately involved in the complex decentralization reform process in Sierra Leone from 2003 07 During this period Sierra Leone s government established elected district and urban councils across the country transferred certain responsibilities for primary services and local investment and some financial resources to the new councils and invested heavily in building the administrative infrastructure and capacity of the local councils Compared to most other Sub Saharan African countries that have embarked upon decentralization Sierra Leone s progress in building local government capacity and restructuring the fiscal system is enviable The authors conclude that improved security and public services are possible in a decentralizing country and Sierra Leone s progress would not

have been possible without significant effort at fiscal decentralization and intensive investment in local government capacity building The most critical ingredient for this promising but fragile reform process is the dynamic leadership team in charge of promoting the new institutional framework and their persistent effort to achieve quick improvement in the local government system and public services   *Is Decentralization Good For Development?* Jean-Paul Faguet,Caroline Pöschl,2015-08-13 Is decentralisation good for development This book offers insights and lessons that help us understand when the answer is Yes and when it is No It shows us how decentralisation can be designed to drive development forward and focuses attention on how institutional incentives can be created for governments to improve public sector performance and strengthen economies in ways that enhance citizen well being It also draws attention to the political motives behind decentralisation reforms and how these shape the institutions that result This book brings together academics working at the frontier of research on decentralization with policymakers who have implemented reform at the highest levels of government and international organizations Its purpose is to marry policymakers detailed knowledge and insights about real reform processes with academics conceptual clarity and analytical rigor This synthesis naturally shifts the analysis towards deeper questions of decentralization stability and the strength of the state These are explored in Part 1 with deep studies of the effects of reform on state capacity political and fiscal stability and democratic inclusiveness in Bolivia Pakistan India and Latin America more broadly These complex questions crucially important to policymakers but difficult to address with statistics yield before a multipronged attack of quantitative and qualitative evidence combined with deep practitioner insight How should reformers design decentralisation Part 2 examines these issues with evidence from four decades of reform in developing and developed countries What happens after reform is implemented Decentralization and local service provision turns to decentralization s effects on health and education services anti poverty programs with original evidence from 12 countries across Africa Asia and Latin America   **Handbook of Research on Nurturing Industrial Economy for Africa's Development** Nafukho, Frederick Muyia,Boniface Makulilo, Alexander,2021-03-19 A robust manufacturing sector is a necessity and a sufficient condition for any country s human and economic development as it creates employment and alleviates poverty During this Fourth Industrial Revolution era there is an urgent need in Africa to optimally utilize the existing resources to support manufacturing or else risk allowing the continent to fall behind in the industrial economy Innovative strategies are needed that can unlock Africa s manufacturing potential by exploring key areas that may help Africa mature and launch modernized economies that will benefit the developed world s industrial economy The Handbook of Research on Nurturing Industrial Economy for Africa s Development examines various innovations necessary for Africa s economic development including drivers of the manufacturing economy such as education agriculture human capital science and technological innovations language politics and business environments The book explores strategies to increase Africa s economic diversity complexity productivity and ultimately competitiveness and for the continent to realize its manufacturing

industrial potential Further chapters focus on African countries industrial economies in the African context and facilitating the fulfillment of the Sustainable Development Goals SDGs and the African Union s Agenda 2063 This book is a valuable reference tool for government officials economists industrialists practitioners stakeholders researchers academicians and students interested in the industrial economic development of Africa *Making Decentralization Work* Ed Connerley,Kent Eaton,Paul J. Smoke,2010 *Decentralization Towards Democratization and Development* Raul P. De Guzman,Mila A. Reforma,1993 *Local Democracy and Development* T. M. Thomas Isaac,Richard W. Franke,2002 In this definitive history a key figure in the People s Campaign in Kerala provides a unique insider s account of one of the world s most extensive and successful experiments in decentralization Launched in 1996 the campaign mobilized over 3 million of Kerala s 30 million people and resulted in bottom up development planning in all 1 052 of its villages and urban neighborhoods The authors tell a powerful story of mass mobilization and innovation as bureaucratic opposition was overcome corruption and cynicism were rooted out and parliamentary democracy prevailed Considering both the theoretical and applied significance of the campaign in the context both of India s development since independence and of recent international debates about decentralization civil society and empowerment the book provides invaluable lessons for sustainable development worldwide **Rural Development Through Democratic Decentralization** Shalini Rajneesh,2002 With special reference to Karnataka India *A Decentralization Policy for the Republic of Namibia: Decentralization, development, and democracy* Namibia. Ministry of Regional and Local Government and Housing,1997 Central and Local Government Relations in Asia Naoyuki Yoshino,Peter J. Morgan,2017 Sustainable and inclusive growth in emerging Asian economies requires high levels of public investment in areas such as infrastructure education health and social services The increasing complexity and regional diversity of these investment needs together with the trend of democratization has led to fiscal decentralization being implemented in many Asian economies This book takes stock of some major issues regarding fiscal decentralization including expenditure and revenue assignments transfer programs and sustainability of local government finances and develops important findings and policy recommendations Decentralization, Democratic Governance, and Civil Society in Comparative Perspective Philip Oxhorn,Joseph S. Tulchin,Andrew Selee,2004-05-19 This volume studies the relation of decentralization to democratization at both intermediate and local levels and analyzes how decentralization is transforming the relationship between the state and civil society *Decentralisation in Developing Countries* S. S Meenakshisundaram,1994 **The Political Economy of Democratic Decentralization** James Manor,1999 Nearly all countries worldwide are now experimenting with decentralization Their motivation are diverse Many countries are decentralizing because they believe this can help stimulate economic growth or reduce rural poverty goals central government interventions have failed to achieve Some countries see it as a way to strengthen civil society and deepen democracy Some perceive it as a way to off load expensive responsibilities onto lower level governments Thus

decentralization is seen as a solution to many different kinds of problems This report examines the origins and implications decentralization from a political economy perspective with a focus on its promise and limitations It explores why countries have often chosen not to decentralize even when evidence suggests that doing so would be in the interests of the government It seeks to explain why since the early 1980s many countries have undertaken some form of decentralization This report also evaluates the evidence to understand where decentralization has considerable promise and where it does not It identifies conditions needed for decentralization to succeed It identifies the ways in which decentralization can promote rural development And it names the goals which decentralization will probably not help achieve *Decentralisation and Local Governance* L. C. Jain,Lakshmi Chand Jain,2005 This is a collection of 20 essays dedicated to Dr George Mathew by eminent scholars and academics on decentralised governance and its importance in a globalising world Based on emperical studies and paradigms of developed and developing countries it has an overarching focus on India s panchayati raj institutions The Seventy third constitution Amendment Act of 1992 by making PRIs mandatory was a historic move towards deepening democracy and advancing development through decentralisation Decentralisation programmes in other countries e g S Africa and Pakistan are also reviewed The book offers a comprehensive account of development and governance at the grassroots through a broad canvas of multiperspective and interdisciplinary presentations
