**First Steps in Mental Growth** David R. Major, 1906      **First Steps in Mental Growth: A Series of Studies in the Psychology of Infancy (1906)** David R. Major, 2008-06-01 This scarce antiquarian book is a facsimile reprint of the original. Due to its age it may contain imperfections such as marks, notations, marginalia and flawed pages. Because we believe this work is culturally important, we have made it available as part of our commitment for protecting, preserving and promoting the world's literature in affordable, high-quality modern editions that are true to the original work.      **XXX International Congress of Psychology: Abstracts** Michele Robert, 2017-10-03 The abstracts of the XXX International Congress of Psychology, July 2012, Cape Town, are published as a supplement to Volume 47 of the International Journal of Psychology. The published volume includes the abstracts of the invited addresses, symposia, oral and poster presentations, numbering over 5 000 separate contributions and creating an invaluable overview of the discipline of psychological science around the world today.      *First Steps in Mental Growth* David R. Major, 2015-06-26 Excerpt from *First Steps in Mental Growth: A Series of Studies in the Psychology of Infancy*. The studies composing this volume are based in the main upon a record which I kept of my child R from his birth to the end of his third year, and they are made up in large measure of transcripts from my notebooks. The principal aim of the studies is to present data, observational and experimental, bearing upon certain aspects of infant mind which have a special attraction for me, mainly because they seem to be fundamental to later mental development, also for the reason that in studying them one is carried back to the rudimentary processes from which spring the leading characteristics of the developed mind. My original plan was to make notes as full as time would permit and as accurate as possible, and then to print the bare record. But this plan was abandoned for two reasons: first, it was found that additional explanation was necessary to make the record intelligible; in the second place, one cannot undertake the arrangement of material of this kind without thinking about it, without wondering what it means, why and how it came to be what it is, what were the conditions of its appearance, what are its interrelations, and what its relation to later mental development.
