Development Of Natural History In Tudor England:

The Development of Natural History in Tudor England F. David Hoeniger, J. F. M. Hoeniger, 1979 Folger guides provide lively authoritative surveys of important aspects of sixteenth and seventeenth century English cultural history Attractively illustrated with material from contemporary documents the Guides are designed for the general reader and are particularly valuable as enrichment resources for courses in Renaissance history and literature **Wrestling with Nature** Peter Harrison, Ronald L. Numbers, Michael H. Shank, 2011-06 When and where did science begin Historians have offered different answers to these questions some pointing to Babylonian observational astronomy some to the speculations of natural philosophers of ancient Greece Others have opted for early modern Europe which saw the triumph of Copernicanism and the birth of experimental science while yet another view is that the appearance of science was postponed until the nineteenth century Rather than posit a modern definition of science and search for evidence of it in the past the contributors to *Wrestling with Nature* examine how students of nature themselves in various cultures and periods of history have understood and represented their work The aim of each chapter is to explain the content goals methods practices and institutions associated with the investigation of nature and to articulate the strengths limitations and boundaries of these efforts from the perspective of the researchers themselves With contributions from experts representing different historical periods and different disciplinary specializations this volume offers a fresh perspective on the history of science and on what it meant in other times and places to wrestle with nature **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1970 First multi year cumulation covers six years 1965 70 **Catalog of Copyright Entries. Third Series** Library of Congress. Copyright Office, 1972 **Dictionary Catalog of the Department Library** United States. Department of the Interior. Library, 1969 **Recent Works in the California State Library in Science and Technology** California State Library, 1972 *Book Catalogue of the Library of the Royal Society* Royal Society (Great Britain). Library, Alan James Clark, 1982 **Geologists and the History of Geology: Introduction** William Antony S. Sarjeant, 1980 **Catalog of Printed Books of the Folger Shakespeare Library, Washington, D.C.** Folger Shakespeare Library, 1970 *The New Cambridge Bibliography of English Literature: 600-1660* George Watson, 1974 **The National Union Catalogs, 1963-** , 1964 *John Ray (1627-1705), Essex Naturalist* Stuart A. Baldwin, 1986 **The National union catalog, 1968-1972** , 1973 **Shakespearean Research and Opportunities** , 1970 Issues for 1968 69 include discussions of the conference on Opportunities for research in Shakespearean studies held at the 1967 meetings of the Modern Language Association **The Winterthur Museum Libraries Collection of Printed Books and Periodicals: General catalog** Henry Francis du Pont Winterthur Museum. Libraries, 1974 **Medicine and Shakespeare in the English Renaissance** F. David Hoeniger, 1992 Unlike enthusiastic treatments by doctors of Shakespeare s knowledge of medicine it is the work of a scholar specializing in Elizabethan drama who guided by medical historians has ventured into an interdisciplinary field

Several chapters describe the background of various theoretical and practical aspects of medicine with which Shakespeare's educated contemporaries were familiar. How did they think about the body with its physiological processes and their relation to mind and soul? How were health and various diseases understood? How were the sick treated, where and by what kinds of people? What were the chief methods of treatment and what was the rationale for them? What kinds of literature provided ordinary literate Elizabethan men and women with useful medical information? How much controversy was there in medical thought and practice? Yet the book's central focus remains on Shakespeare.
