Medical Decision Making Harold C. Sox,Michael C. Higgins,Douglas K. Owens,Gillian Sanders Schmidler,2024-02-27
MEDICAL DECISION MAKING Detailed resource showing how to best make medical decisions while incorporating clinical practice guidelines and decision support systems Sir William Osler a legendary physician of an earlier era once said Medicine is a science of uncertainty and an art of probability In Osler s day and now decisions about treatment often cannot wait until the diagnosis is certain Medical Decision Making is about how to make the best possible decision given that uncertainty The book shows how to tailor decisions under uncertainty to achieve the best outcome based on published evidence features of a patient s illness and the patient s preferences Medical Decision Making describes a powerful framework for helping clinicians and their patients reach decisions that lead to outcomes that the patient prefers That framework contains the key principles of patient centered decision making in clinical practice Since the first edition of Medical Decision Making in 1988 the authors have focused on explaining key concepts and illustrating them with clinical examples For the Third Edition every chapter has been revised and updated Written by four distinguished and highly qualified authors Medical Decision Making includes information on How to consider the possible causes of a patient s illness and decide on the probability of the most important diagnoses How to measure the accuracy of a diagnostic test How to help patients express their concerns about the risks that they face and how an illness may affect their lives How to describe uncertainty about how an illness may change over time How to construct and analyze decision trees How to identify the threshold for doing a test or starting treatment How to apply these concepts to the design of practice guidelines and medical policy making Medical Decision Making is a valuable resource for clinicians medical trainees and students of decision analysis who wish to fully understand and apply the principles of decision making to clinical practice Backpacker ,2001-03 Backpacker brings the outdoors straight to the reader s doorstep inspiring and enabling them to go more places and enjoy nature more often The authority on active adventure Backpacker is the world s first GPS enabled magazine and the only magazine whose editors personally test the hiking trails camping gear and survival tips they publish Backpacker s Editors Choice Awards an industry honor recognizing design feature and product innovation has become the gold standard against which all other outdoor industry awards are measured *Monthly Bulletin* St. Louis Public Library,1926 Teachers bulletin vol 4 issued as part of v 23 no 9 **Writing and Editing for Digital Media** Brian Carroll,2025-12-12 An essential guide to writing and editing for digital media this sixth edition responds to the mainstreaming of genAI Generative AI and LLMs Large Language Models among many other changes in the best practices of digital storytelling Carroll explains and demonstrates how to effectively write for digital spaces and places that typically abound with graphical content multimedia and hypertextual interactive elements He also combines hands on practical exercises with information on key topics such as misinformation and disinformation and the

proliferation of artificial intelligence This new edition specifically explores the ethical questions raised by AI as well as the new possibilities it presents Each chapter features lessons and exercises through which students can build a solid understanding of the ways that digital communication provides opportunities for dynamic storytelling and multi directional communication It also speaks to writers editors public relations practitioners and social media managers and marketers Updated with contemporary examples and new pedagogy throughout this is the ideal handbook for students seeking careers in digital media particularly in content development and digital storytelling It is an essential text for students of media communication public relations marketing and journalism who are looking to develop their writing and editing skills for these ever evolving fields and professions This book also has accompanying Support Material that offers additional weekly activities and assignments providing students additional opportunity to put theory into practice Monthly Bulletin.
