Busty B-Movie Beauties Pin Up Eva Quim, These aren t photos They really

really aren't. These images are mostly AI generated and not only that there are no individual human beings involved in creating this content. No copyrighted franchise characters or living artist prompts were invoked in their creation. None of this content reproduces copyrighted photographs or illustrations; no image search reveals a match for any of them because while I have used AI to assist in their creation, there are no raw AI images in this book. I begin with a customized Stable Diffusion model SDXL2 based on a checkpoint merge of several models and my own artwork. I generate a thousand images at a whack on my own computer using open source Stable Diffusion software. Then the hardest part, which is curation, finding the good ones, the one out of a hundred worth finishing. Next comes the laborious Photoshop repainting and recoloring, repainting oh so many hands, compositing, correcting anatomy through judicious liquification and obsessive noodling and a lot of adjustments, small and large. Puppet warp, background replacement. In painting with Adobe's image generation to remove stupid AI crap, repair eyes, fingernails, background elements. I edit their expressions until the images come alive, spending a lot of time on the eyes. The raw AI images never work for me until I tweak them. At some point, this means the images may have become copyrightable derivative works; if not, this content may prove to be public domain; only a court can decide. Decisions have gone either way. On a case-by-case basis, I don't care one way or the other. I'm doing this work, sharing it, bashing together something unique. I'm very unlikely to make my professional design rate on this stuff. It's a labor of love so far anyway. At any rate, I hope you enjoy my pin ups.
