Desolation Of A City Coventry And The Urban Crisis Of The Late Middle Ages:

Desolation of a City Charles Phythian-Adams, 2002-06-27 A richly documented case study of urban crisis and decline in late medieval England **The Rise and Decline of an Iberian Bourgeoisie** Jeff Fynn-Paul, 2016 One of the first long term studies of the Catalan city of Manresa during the late medieval crisis **Ideas and Solidarities of the Medieval Laity** Susan Reynolds, 2022-05-29 This book contains essays written over the past 25 years about medieval urban communities and about the loyalties and beliefs of medieval lay people in general Most writing about medieval religious political legal and social ideas starts from treatises written by academics and assumes that ideas trickled down from the clergy to the laity Susan Reynolds whether writing about the struggles for liberty of small English towns the national solidarities of the Anglo Saxons or the capacity of medieval peasants to formulate their own attitudes to religion rejects this assumption She suggests that the medieval laity had ideas of their own that deserve to be taken seriously **Towns in Decline, AD100-1600** Terry Slater, 2017-07-05 Many European towns have experienced loss of population degradation of physical structure and profound economic change at least once since the height of the Roman Empire This volume is an examination of the various causes of these changes the results which flowed from them and the reasons why some urban centres survived revived and eventually flourished again while others failed and died The contributors bring to bear the techniques of history and archaeology the perspectives of economics agronomy medicine architecture and planning geography and law to the study The result is a synthesis which connects the Decline of the Roman Empire to the effects of the Black Death and the economic transformation of Renaissance Florence Old Age in Late Medieval England Joel T. Rosenthal, 1996-08-29 This view of a society composed of the aged as well as of the young and the middle aged is reinforced by an examination of peers bishops and members of parliament and urban office holders for whom demographic and career length information exists Many individuals had active careers until near the end of their lives the aged were neither rarities nor outcasts within their world Literary Practice and Social Change in Britain, 1380-1530 Lee Patterson, 2018-09-25 As a traditional site of historical criticism medieval studies is particularly well placed to benefit from the recent reemergence of historicism in literary studies But this new critical historicism differs from the traditional criticism in both method and interests differences that are well illustrated by this collection A concern with politics a reliance on the materials of economic and social history a conception of writing as a form of social practices a focus upon the forces of change in medieval culture and unwillingness to observe the usual distinction between literary and historical texts and a historicization of their own activity these characteristics make these essays a significant contribution to medieval studies Moreover both in conception and execution the essays reject the barrier that the humanist account of history has erected between a Middle Ages stigmatized as distant and other and a Renaissance consecrated as the beginning of the modern world Thus they invite the attention of nonmedievalists especially Renaissance specialists who wish to test their assumptions about medieval literature against some of the best recent work in the field The

authors consider a wide range of materials Three of the essays explore Chaucer's career as a bureaucrat a diplomat and a poet Other topics include Langland's self constitution in *Piers Plowman* the medieval production and modern reception of the mystery plays Hoccleve's innovative strategies for offering political advice to his king and the ideological and psychological interests that governed the idea of the city in sixteenth century Scotland All scholars and studies of the Middle Ages comparative literature and language programs generally will appreciate this ground breaking collection Contributors Anne Middleton Paul Strohm Lee Patterson David Wallace Larry Scanlon Theresa Coletti Louise Fradenburg This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1990

New Approaches to Governance and Rule in Urban Europe Since 1500 Simon Gunn, Tom Hulme, 2020-03-31 Urban power and politics are topics of abiding interest for students of the city This exciting collection of essays explores how Europe's cities have been governed across the last 500 years Taken as a whole it provides a unique historical overview of urban politics in early modern and modern Europe At the same time it guides the reader through the variety of ways in which power and governance are currently understood by historians and new directions in the subject The essays are wide ranging covering Europe from Scandinavia to the Mediterranean Russia to Ireland between 1500 and the twentieth century Each chapter employs a specific case study to illuminate a way of examining how power worked in regard to topics such as women popular culture or urban elites A variety of approaches are deployed including the study of ritual and performance morality and conduct governmentality and the state infrastructure and the individual Reflecting the state of the art in European urban history the book is essential reading for anyone interested in the study of urban politics and government It represents a fresh take on a rich subject and will stimulate a new generation of historical studies of power and the city

Northampton in the Late Middle Ages Evan T. Jones, Jane Laughton, Peter Clark, 2000 *Everyday Life in Medieval England* Christopher Dyer, 2000-01-01 *Everyday Life in Medieval England* captures the day to day experience of people in the middle ages the houses and settlements in which they lived the food they ate their getting and spending and their social relationships The picture that emerges is of great variety of constant change of movement and of enterprise Many people were downtrodden and miserably poor but they struggled against their circumstances resisting oppressive authorities to build their own way of life and to improve their material conditions The ordinary men and women of the middle ages appear throughout *Everyday life in Medieval England* is an outstanding contribution to both national and local history
