Desperate Venture The Story Of Operation Torch The Allied Invasion Of North Africa:

Desperate Venture Norman Gelb,1992 *Citizenship and Antisemitism in French Colonial Algeria, 1870-1962* Sophie B. Roberts,2017-12-28 Professor Roberts examines the relationship between antisemitism and the practices of citizenship in a colonial context She focuses on the experience of Algerian Jews and their evolving identity as citizens as they competed with the other populations in the colony including newly naturalised non French settlers and Algerian Muslims for control over the scarce resources of the colonial state The author argues that this resulted in antisemitic violence and hotly contested debates over the nature of French identity and rights of citizenship Tracing the ambiguities and tensions that Algerian Jews faced the book shows that antisemitism was not coherent or stable but changed in response to influences within Algeria and from metropolitan France Europe and the Middle East Written for a wide audience this title contributes to several fields including Jewish history colonial and empire studies antisemitism within municipal politics and citizenship and adds to current debates on transnationalism and globalization

Franklin D. Roosevelt and the Art of Leadership

William Nester,2025-11-04 Scholar William Nester explores Franklin D Roosevelt s character personality and presidential power After their independence and civil wars Americans never faced a greater threat than the sixteen years of global depression followed by global war from 1929 to 1945 Franklin Delano Roosevelt was the president for the last dozen of those years during which he led the nation first to alleviate the Great Depression then led an international alliance that vanquished the fascist powers during the Second World War Along the way he established the modern presidency with centralized powers to make and implement domestic and foreign policies He was naturally a master politician who eventually through daunting trials and errors became an accomplished statesman For all that historians regularly rank Roosevelt among the top three presidents Yet most historians and countless others criticize Roosevelt for an array of things that he did or failed to do Conservatives lambast him for creating a welfare state and trying to pack federal courts with liberal judges while liberals condemn him for interning 120 000 Japanese Americans during the war and doing little to advance civil rights for African Americans Critics blister war commander Roosevelt for caving into strategies demanded by powerful leaders that squandered countless lives and treasure in literal and figurative dead ends These include Prime Minister Churchill s push to invade the Italian peninsula and General MacArthur s determination to recapture the Philippines At times his policies violated his principles Like President Wilson during the Second World War Roosevelt championed self determination but not for every nation He badgered Churchill to break up Britain s empire while bowing to Stalin s brutal communist conquest of eastern Europe And those are just the opening barrages against Roosevelt Although he won four presidential elections with overwhelming majorities nearly as many people reviled him as they adored him Franklin D Roosevelt and the Art of Leadership explores the dynamic among Roosevelt s character personality and presidential power with which he asserted policies that overcame first the Great Depression and then the Axis powers during the Second World War Along the way the

book raises and answers key questions What were Roosevelt s leadership skills and how did he develop them over time Which New Deal policies succeeded which failed and what explains those results Which war strategies succeeded which failed and what explains those results What policies rooted in Roosevelt s instincts proved to be superior to alternatives grounded in thick official reports advocated by his advisors Finally how does Roosevelt rank as an American and global leader

General George S. Patton and the Art of Leadership William Nester, 2025-03-30

For General George S Patton Leadership is the thing that wins battles I have it but I ll be damned if I can define it Probably it consists in knowing what you want to do and then doing it and getting mad if anyone steps in the way Self confidence and leadership are twin brothers Indeed Patton excelled at virtually every dimension of leadership most vitally as a war commander His record as a general is clear The larger more armored and better supplied his armies and the freer he was to decide what to do with them the more rapid and further they advanced to inflict more defeats on the enemy In that no other American army commander matched him during World War II That ranks Patton among the Valhalla of America s greatest generals with him most resembling Thomas Stonewall Jackson and Nathan Bedford Forrest as a fast moving hard hitting commander who repeatedly outflanked and devastated enemy forces Patton led from the front and tried to inspire his troops by being a model officer who exemplified bravery problem solving tactical brilliance and decisiveness He was in near constant motion from his headquarters to rear echelon and front line troops everywhere exhorting them to greater efforts and overcoming challenges at times enduring shell fire strafing mines snipers and other dangers His greatest attribute was his drive to be the best at whatever he chose or was ordered to do He recognized that developing a successful military career depended not just on will and chance but on incessant training and study Yet he believed that instincts were just as vital as skills in being a successful leader I have a sixth sense in war and can put myself in the enemies head and I am also willing to take chances Patton harbored plenty of flaws He was a narcissist who constantly strove to be center stage and outshine his rivals He contrived an idealized version of himself as the epitome of the brilliant general and fearless soldier immaculately dressed and spent his life playing that role He was a braggart who regaled listeners with at times exaggerated tales of his past deeds and those yet to come His boasting did have one positive element He sought to surpass his past glories with greater future victories Patton seesawed between elation and despair rage and compassion He could chew out a subordinate for some mistake in the morning and comfort him for a similar mistake in the afternoon His quick temper and provocative views often overpowered his self control Twice that cost him an army command During Germany s occupation in August 1945 he casually quipped to several reporters that being a Nazi in Germany was no different from being a Republican or Democrat in the United States For that Eisenhower relieved him from Third Army s command Most notoriously during the Sicily campaign he slapped two soldiers suffering combat fatigue that he accused of malingering
