*New Scientist*, 1997 **Home Town News** Sally Foreman Griffith, 1989-01-05 In 1895 a 27 year old journalist named William Allen White returned to his home town of Emporia Kansas to edit a little down at the heels newspaper he had just purchased for 3 000 The new editor he wrote in his first editorial hopes to live here until he is the old editor until some of the visions which rise before him as he dreams shall have come true White did become the old editor remaining with the Emporia Gazette until his death 50 years later During his long tenure he gained nation wide fame as an author political leader and social commentator But more than anything else he became the national embodiment of the small town newspaperman and all the treasured virtues that small towns represented in the minds of Americans Home Town News is both a fascinating biography and a compelling social history As Sally Foreman Griffith shows White s popular image kindly yet crusading fiercely independent yet deeply rooted in his community doesn t do justice to the man s complexity Shrewdly carving out a position of leadership in a faction torn town White carefully shaped his paper s vision of its community to promote local economic growth Republican political control and social harmony With his emergence as a leader among Midwestern progressives he carefully adapted the ideas and rhetoric of small town boosterism to changing economic realities The book uses White s career to help us understand the role of journalism and the journalist in turn of the century American

culture Far from being a simple chronicler of daily events the small town newspaperman carried considerable weight in his community He was a leading force in local business a galvanizing influence in civic life and a key political activist As giant corporations came to dominate the national economy the newspaperman played a pivotal yet ambivalent role in the resulting social transformation he sought to preserve local autonomy even as his paper introduced his readers to mass produced consumer goods Home Town News also tells the story of Emporia Kansas during this period of social change Its richly textured descriptions of small town life take us beyond abstractions like modernization progressivism and boosterism As we observe the Emporia Street Fair of 1899 the heated controversy over the morality of a local doctor in 1902 and the elaborate campaign to build a Y M C A in 1914 we gain new insights into the processes that have shaped modern America Cyborg Lives? Flis Henwood, Felicity Henwood, Nod Miller, 2001 Cyborg Lives is a groundbreaking collection of women s autobiographical accounts of everyday relationships with technology The technobiographies presented here describe encounters with technology ranging from CDROMS and web pages to science laboratories ante natal screening nuclear power and appliances in the home These very personal stories offer insight into lived experience where gender intersects with class ethnicity nationality sexuality generation and subcultural identity in shaping technological encounters Cyborg Lives uses Donna Haraway s now well known cyborg metaphor to examine the centrality of technology to daily life The result is a series of fascinating life stories that stimulate thinking about the ways that technology intersects with ordinary everyday experiences The volume asserts that in the twenty first century technology is an intrinsic part of our subjectivity whether we like it or not Cyborg Lives is written in an accessible way while at the same time reflecting a range of sophisticated theoretical perspectives The book will be of interest both to new students and experienced researchers and will become an invaluable resource in the fields of women s and gender studies autobiography sociology literature and cultural technology and communication studies Details [www.rawnervebooks.co.uk/cyborglives.html](http://www.rawnervebooks.co.uk/cyborglives.html) **Presidential Courage** Michael R.
