Destabilizing Theory Contemporary Feminist Debates:

Destabilizing Theory Michèle Barrett, Anne Phillips, 1992 In the past decade the central principles of western feminist theory have been dramatically challenged many feminists have endorsed post structuralism's rejection of essentialist theoretical categories and have added a powerful gender dimension to contemporary critiques of modernity Earlier women have been radically undermined and newer concerns with difference identity and power have emerged *Destabilizing Theory* explores these developments in a set of specially commissioned essays by feminist theorists Does this change amount to a real shift within feminist theory or will feminism's links with an emancipatory modernism reinstate an older political agenda Can we transcend the common counterposition of equality and difference or is feminism condemned to argue within the terms of this binary opposition

Feminisms in Development Andrea Cornwall, Elizabeth Harrison, Ann Whitehead, 2013-07-04 This collection of essays by leading feminist thinkers from North and South constitutes a major new attempt to reposition feminism within development studies Feminism's emphasis on social transformation makes it fundamental to development studies Yet the relationship between the two disciplines has frequently been a troubled one At present the way in which many development institutions function often undermines feminist intent through bureaucratic structures and unequal power quotients Moreover the seeming intractability of inequalities and injustice in developing countries have presented feminists with some enormous challenges Here emphasizing the importance of a plurality of approaches the authors argue for the importance of what feminisms have to say to development Confronting the enormous challenges for feminisms in development studies this book provides real hope for dialogue and exchange between feminisms and development

Postfeminisms Ann Brooks, 2002-09-11 Once seen as synonymous with anti feminism postfeminism is now understood as the theoretical meeting ground between feminism and anti foundationalist movements such as postmodernism post structuralism and post colonialism In this clear exposition of some of the major debates theorists and practitioners Ann Brooks shows how feminism is being redefined for the twenty first century Individual chapters look at postfeminism in relation to feminist epistemology Foucault psychoanalytic theory and semiology postmodernism and postcolonialism cultural politics popular culture film and media and sexuality and identity For all students looking for

Theatre from Rhodesia to Zimbabwe Samuel Ravengai, Owen Seda, 2021-07-06 The voices that are represented in this collection come from various parts of the world and express the views of practitioners and scholars who have all had first hand experience working in Zimbabwean theatre from the last days of Rhodesia to Zimbabwe The collection views the long continuum of developments in local theatre history as a case of the intrusive hegemonies that came with colonial Rhodesia as a conquest society and localised identities in the form of the persistence of indigenous and syncretic popular forms With time all these came together to constitute the makings of a contested post colony in contemporary theatre practice in Zimbabwe The primary interest of scholars who are represented here is located at the intersection of political cultural and performative discourses and the flow of Zimbabwean history The focus moreover is not only on the history of performance cultures in postcolonial Zimbabwe it extends its critical gaze to include the history of political ideas that gave rise to cultural contestation in the field of theatre and performance

Ludic Feminism and After Teresa L. Ebert, 1996 A provocative and controversial challenge to postmodern academic feminism

Feminism and Politics, 1998-03-12 Series Blurb Oxford Readings in Feminism provide accessible one volume guides to the very best in contemporary feminist thinking assessing its impact and importance in key areas of study Collected together by scholars of outstanding reputation in their field the articles chosen represent the most important work on feminist issues and concise lively introductions to each volume crystallize the main line of debate in the field Is there too much gender in politics too much stereotyping of female and male Or is there too little gender too little attention to differences between women and men Should feminists be challenging male dominance by opening up politics to women Or is women a fictitious entity that fails to address differences by class or race Is equality best served by denying differences between the sexes Or

best promoted by stressing the special needs of women The essays in *Feminism and RPolitics* answer these questions in a variety of ways but all see feminism as transforming the way we think about and act in politics Spanning issues of citizenship and political representation the ambiguities of identity politics and the problems in legislating for sexual equality the readings provide an exciting overview of recent developments This outstanding collection will be essential reading for any feminist who has doubted the importance of political studies and any student of politics who has doubted the relevance of feminism

Feminist Theory Joan Nordquist,1992 Gender and Catastrophe Ronit Lentin,1997-12 Part I Genders and Genocides *Planning in Contemporary Africa* Ambe J. Naikar,2003 Feminists Negotiate the State Cynthia R. Daniels,Rachelle Brooks,1997 As feminists demand government action to address gender inequality they are confronted by the paradox of state power a state which promises women protection but protects the interests of men Using domestic violence against women as a case study this book examines the trade offs and compromises faced by feminists in this process of negotiating with the state Over the past twenty years feminists have won critical and significant political victories on the issue of domestic violence including funding for battered women s shelters better training for police officers and judges and

legal rights in the courts Yet the state has failed to address the deeper social and economic sources of domestic violence and in many ways helps to perpetuate the masculine culture of violence which helps to produce it This book explores feminist engagements with each of the three branches of government examining the response of the Executive branch through mandatory police arrest policies the Judicial branch through the use of Battered Woman s Syndrome in the courts and the Legislative branch through analysis of the Violence Against Women Act to feminist demands for social change **Women and Work** Elizabeth Higginbotham, Mary Romero, 1997-06-12 How race ethnicity and social class shape the working lives working conditions and wages of women is explored in this collection of original research articles With the emphasis on women from non white or working class backgrounds Women and Work assesses women s abilities to control their work environments how they see themselves and their options in the work place Throughout the collection addresses such topics as the integration of work and family women s vision of their own work and consciousness as employees and women s resistance to exploitative and limiting work
