Stylidis,2021-11-09 Tourism is characterized by diversity enormous growth and multidimensional impacts on several levels In the current turbulent environment tourism destinations need on the one hand to maintain and enhance their products in the tourism map and on the other hand to protect their resources integrity for future generations based on sustainability premises This is more evident for traditional destinations in Western Europe as many of them face the consequences of over growth unsustainable development and lack of service quality In this respect attention in the literature needs to be given to how destinations in the region can conceptualize and mitigate their weaknesses as well as capitalize on their competences in order to plan develop and manage tourism products that could lead them to sustainable competitiveness in the long term The book is of significant interest to those researching and working within the area of tourism marketing but also of interest to students who are seeking wider reading on the topic
