Destruction Earth:

Earth's Catastrophic Past and Future William Hutton, Jonathan Eagle, 2004-08 Edgar Cayce America's best documented psychic gave upwards of 44 readings that dealt with lost continents geophysical changes to Earth beginning 1958 1998 and a pole shift due to begin about now In this book geologist William Hutton and researcher Jonathan Eagle look for correspondences between results of geophysical research studies and psychic descriptions of prehistoric catastrophes They also seek scientifically to test readings predictions of catastrophic Earth changes all the while investigating the following fascinating subjects Development and calibration of a comprehensive pole shift model The countries predicted to be most affected by a sudden 1 pole shift The geologic trend for a mineralized gold vein at Bimini Bahamas The authors discoveries of correlations between a 2002 arctic earthquake and the eruption of torrid area volcanoes the dropping of atom bombs in 1945 and a significant increase in sunspots following and the peaceable nature of Europe in 1645 1715 and the period's near total lack of sunspots Cayce readings implied or predicted all three phenomena The first ever analysis of the sources of Cayce's channeled readings including a ranking of the veracity and reliability of the most important Earth changes and pole shift readings Moralistic reasons for future catastrophic geophysical changes to Japan China and America Locations of post pole shift safety lands in Canada and America Locations of the records of the Atlantean civilization to be found when Earth changes begin How to awaken to the New Cycle presently opening before humanity Evidence for Atlantis in the mid Atlantic ridge area and for Lemuria or Mu in the Pacific The consuming religious war in which we find ourselves and an answer to world conditions today Visions of an imminent Age ending fire as found in a Cayce reading in a channeled book by Phyllos the Tibetan and in the 1960s visions of girls at Garabandal Spain Doubtful interpretations of Earth changes and pole shift readings advanced by managers and writers of Cayce's legacy organization the Association for Research and Enlightenment Inc From the Foreword by the Editor The acid test of pole shift and other Earth change predictions is their scientific credibility If true momentous societal and political changes are imminent The geopolitical map of the world will be redrawn The authors are exploring the transition from the end of one Age to the beginning of another Contesting Earth's Future Michael E. Zimmerman, 2023-11-15 Radical ecology typically brings to mind media images of ecological activists standing before loggers saws staging anti nuclear marches and confronting polluters on the high seas Yet for more than twenty years the activities of organizations such as the Greens and Earth First have been influenced by a diverse less publicized group of radical ecological philosophers It is their work the philosophical underpinnings of the radical ecological movement that is the subject of Contesting Earth's Future The book offers a much needed balanced appraisal of radical ecology's principles goals and limitations Michael Zimmerman critically examines the movement's three major branches deep ecology social ecology and ecofeminism He also situates radical ecology within the complex cultural and political terrain of the late twentieth century showing its relation to Martin Heidegger's anti technological thought 1960s counterculturalism and contemporary

theories of poststructuralism and postmodernity An early and influential ecological thinker Zimmerman is uniquely qualified to provide a broad overview of radical environmentalism and delineate its various schools of thought He clearly describes their defining arguments and internecine disputes among them the charge that deep ecology is an anti modern proto fascist ideology Reflecting both the movement s promise and its dangers this book is essential reading for all those concerned with the worldwide ecological crisis Radical ecology typically brings to mind media images of ecological activists standing before loggers saws staging anti nuclear marches and confronting polluters on the high seas Yet for more than twenty years the activities of organizations such as **Is there an unseen world? Life's Journey Into Despair and Failure Edward Einar Hailio,2007-10 For years I was a proud employee of General Motors I loved my work as a Journeyman Electrician Unfortunately my work was transformed into a horror story when I was assigned to Pontiac Assembly Center There I was routinely bullied harassed and threatened by co workers and supervisors When I asked GM management for help they responded by aligning themselves with my persecutors I was threatened with physical violence stalked denied safety rights forced to do work others were unwilling to do and refused medical treatment I was removed from a coveted job by a Superintendent who cited my MS condition blatantly ignoring rights afforded under ADA I was called Black Nigger Bitch There were pictures posted about the plant where I was depicted as ROADKILL KKK style nooses were hung in the plant A General Foreman pressed his face close to mine and said I can t promise you you re going to live the next few minutes I next turned to the justice system for help When my case went before a Circuit Court Judge he swiftly and willfully granted summary disposition judgments in GM s favor Undaunted I began my own investigation In doing so I discovered that 108 pages of my deposition had disappeared I uncovered a letter from a GM executive threatening a union official who planned on helping me My lawyer lied to me about having filed an appeal Where is the justice when a court of law condones this as acceptable behavior in a civilized society How can America hold itself out as a free and just society that other countries would choose to emulate Should corporate entities such as GM be allowed to not only bend the law but to break the law How and why could such travesty have been allowed to occur Earth Day John McConnell,2011-07-22 After a half century of activism John McConnell the true founder of Earth Day here relates his global promotion of peace justice and Earth care Following the Kennedy assassination McConnell s Minute for Peace gained worldwide attention This led to his Earth Day and other initiatives aimed at promoting people and planet In this book he shares the views that garnered support during the environmental movement from 1969 onward and that have inspired followers for forty years at annual Earth Day ceremonies at the UN and cities across the globe John McConnell coined the term Earth Day in 1968 proposed its celebration on the spring equinox to the City of San Francisco in October 1969 and announced it in November at a UNESCO Conference The City responded by hosting the first Earth Day on March 21 1970 Margaret Mead UN Secretary General U Thant President Ford and thirty three Nobel laureates supported McConnell s Earth

Day and thirty six worldwide dignitaries signed McConnell s Earth Day Proclamation supporting Earth Day on the spring equinox an annual planetary holiday linking people everywhere without regard to politics culture national border or religion In 1957 after Sputnik McConnell promoted the Star of Hope a satellite devoted to peace This effort sparked his origination of Earth Day the Earth Flag Earth Trustees and the Earth Magna Charta He worked with UN officials and other leaders to overcome differences and build common ground for peace aiming to ensure our planet s future and human survival This book chronicles his global mission his life journey and his unique contributions toward a peaceful and cherished planet
