Destruction Of The Bison An Environmental History 1750 1920:

The Destruction of the Bison Andrew C. Isenberg, 2000 This study first published in 2000 examines the cultural and ecological causes of the near extinction of the bison

The Destruction of the Bison Andrew C. Isenberg, 2000-03-28 The Destruction of the Bison first published in 2000 explains the decline of the North American bison population from an estimated 30 million in 1800 to fewer than a thousand a century later In this wide ranging interdisciplinary study Andrew C Isenberg argues that the cultural and ecological encounter between Native Americans and Euroamericans in the Great Plains was the central cause of the near extinction of the bison Cultural and ecological interactions created new types of bison hunters on both sides of the encounter mounted Indian nomads and Euroamerican industrial hidemen Together with environmental pressures these hunters nearly extinguished the bison In the early twentieth century nostalgia about the very cultural strife which first threatened the bison became ironically an important impetus to its preservation

The Destruction of the Bison Andrew C. Isenberg, 2020-03-26 For the last twenty years The Destruction of the Bison has been an essential work in environmental history Andrew C Isenberg offers a concise analysis of the near extinction of the North American bison population from an estimated 30 million in 1800 to fewer than 1000 a century later His wide ranging interdisciplinary study carefully considers the multiple causes cultural and ecological of the destruction of the species The twentieth anniversary edition includes a new foreword connecting this seminal work to developments in the field notably new perspectives in Native American history and the rise of transnational history and placing the story of the bison in global context A new afterword extends the study to the twenty first century underlining the continued importance of this ground breaking text for current and future students and scholars

A Companion to Global Environmental History J. R. McNeill, Erin Stewart Mauldin, 2012-08-22 The Companion to Global Environmental History offers multiple points of entry into the history and historiography of this dynamic and fast growing field to provide an essential road map to past developments current controversies and future developments for specialists and newcomers alike Combines temporal geographic thematic and contextual approaches from prehistory to the present day Explores environmental thought and action around the world to give readers a cultural intellectual and political context for engagement with the environment in modern times Brings together environmental historians from around the world including scholars from South Africa Brazil Germany and China

Yellowstone and the Snowmobile Michael J. Yochim, 2009 The first scholarly study of winter use in

any national park examines the history of the conflict between the National Park Service and various interest groups over snowmobile use in Yellowstone a highly politicized value driven battle that has taken a serious toll on the NPS's ability to protect the park

American Environmental History Carolyn Merchant, 2007 By studying the many ways diverse peoples have changed shaped and conserved the natural world over time environmental historians provide insight into humanity's unique relationship with nature and more importantly are better able to understand the origins of our current environmental crisis Beginning with the precolonial land use practice of Native Americans and concluding with our twenty first century concerns over our global ecological crisis *American Environmental History* addresses contentious issues such as the preservation of the wilderness the expulsion of native peoples from national parks and population growth and considers the formative forces of gender race and class Entries address a range of topics from the impact of rice cultivation slavery and the growth of the automobile suburb to the effects of the Russian sea otter trade Columbia River salmon fisheries the environmental justice movement and globalization This illustrated reference is an essential companion for students interested in the ongoing transformation of the American landscape and the conflicts over its resources and conservation It makes rich use of the tools and resources climatic and geological data court records archaeological digs and the writings of naturalists that environmental historians rely on to conduct their research The volume also includes a compendium of significant people concepts events agencies and legislation and an extensive bibliography of critical films books and Web sites

America's Ocean Wilderness Gary Kroll, 2008 Examines a handful of famous ocean explorers and naturalists including Jacques Cousteau Thor Heyerdahl and Rachel Carson among others to demonstrate how their work helped shape the way many Americans would think about and interact with the ocean

Red Earth Bonnie Lynn Sherow, 2004 Before the great Land Rush of 1889 Oklahoma territory was an island of wildness home to one of the last tracts of biologically diverse prairie In the space of a quarter century the territory had given over to fenced farmsteads with even the racial diversity of its recent past simplified In this book Bonnie Lynn Sherow describes how a thriving ecology was reduced by market agriculture Examining three central Oklahoma counties with distinct populations Kiowas white settlers and black settlers she analyzes the effects of racism economics and politics on prairie landscapes while addressing the broader issues of settlement and agriculture on the environment Drawing on a host of sources oral histories letters and journals and agricultural and census records Lynn Sherow examines Oklahoma history from the Land Rush to statehood to show how each community viewed its land as a resource what its members planted how they cooperated and whether they succeeded Anglo settlers claimed the choice parcels introduced mechanized farming and planted corn and wheat blacks tended to grow cotton on lands unsuited for its cultivation and Kiowas strove to become pastoralists Lynn Sherow shows that as each group vied for control over its environment its members imposed their own cultural views on the uses of nature and on the legitimacy of the other in their own relationship with the red earth Lynn Sherow further reveals that racism both institutionalized and personal was a

significant factor in determining how where by whom and to what ends land was used in Oklahoma She particularly assesses the impact of USDA policy on land use and by extension environmental and social change As agricultural agents railroads and local banks encouraged white settlers to plant row crops and convert to market farms they also discriminated against Indians and blacks And as white settlers prospered they in turn altered the relationship of Indians and African Americans with the land The transformation of Oklahoma Territory was a protracted power struggle with one people's relationship to the land rising to prominence while banishing the others from history Red Earth provides a perceptive look at how Oklahoma quickly became homogenized mirroring events throughout the West to show how culture itself can be a major agent of ecological change

Great Debates in American Environmental History [2 Volumes] Brian C. Black, Brian Black, Donna L. Lybecker, 2008-05-30 Examines the most important and controversial environmental issues in the history of the United States from the Colonial period to the present Describes the issues the stakeholders of various positions and both the immediate outcome of the debate and the long term consequences of the result

Big Sky Rivers Robert Kelley Schneiders, 2003 To frame his story Schneiders goes back to the nineteenth century journals of fur traders and settlers and in the record of flora fauna floods and human activity he finds evidence of rapid and disruptive change Bison once had the greatest influence on the land and Schneiders depicts an original bison and Indian trail networks on which were overlaid the first forts and towns and then the railroads highways and reservoirs that reconfigured the region forever

On the Road with David Thompson Joyce McCart, Peter J. McCart, 2000 A unique combination of history travelogue and guide book Readers can drive bicycle or even walk the routes David Thompson took as he charted the West opened new trade routes and made alliances with Indian tribes

[A Keener Perception](#) Alan C. Braddock, Christoph Irmscher, 2009 A landmark collection of essays on the intersections of visual art cultural studies and environmental history in America Issues of ecology both as they appear in the works of nature writers and in the works of literary writers for whom place and the land are central issues have long been of interest to literary critics and have given rise over the last two decades to the now firmly established field of ecocriticism The essays in this volume written by art historians and literary critics seek to bring the study of American art into the expanding discourse of ecocriticism A Keener Perception offers a series of case studies on topics ranging from John White's watercolors of the Carolina landscape executed during Sir Walter Raleigh's 1585 Roanoke expedition to photographs by environmental activist Eliot Porter Rather than merely resurrect past instances of ecologically attuned art this volume features essays that resituate many canonical figures such as Thomas Eakins Aaron Douglas and Thomas Cole in an ecocritical light by which they have yet to be viewed Studying such artists and artworks through an ecocritical lens not only provides a better understanding of these works and the American landscape but also brings a new interpretive paradigm to the field of art history a field that many of these critics believe would do well to embrace environmental concerns as a vital area of research In highlighting the work of

scholars who bring ecological agendas to their study of American art as well as providing models for literary scholars who might like to better incorporate the visual arts into their own scholarship and teaching A Keener Perception is truly a landmark collection timely consequential and controversial The Writers Directory ,2013 **Territories, Commodities and Knowledges** Christian Brannstrom,2004 The contributors to this volume engage with emerging conceptual debates within environmental history placing Latin American case studies within the field s main themes *The American Scholar* William Allison Shimer,2000 *Book Review Digest* ,2001
