Detachment and the Writing of History Carl L. Becker, 2018-08-06 First published in 1958 Detachment and the Writing of History collects essays and letters by Carl L. Becker in which the noted historian outlines his views on the study of history the craft of the historian the art of teaching and the historical evolution of the idea of democracy Together these invaluable writings demonstrate Becker's conviction of the moral seriousness of the historian's calling and of the importance of history as a factor at once intellectual and artistically imaginative in the life of society *Detachment and the Writing of History* Carl Lotus Becker, 1972 *Detachment and the Writing of History ...* Carl Lotus Becker, 1910 Detachment and the Writing of History. Detachment and the writing of history: essays and lectures... Carl Lotus Becker, Phil Lyman Snyder, **Objectivity and the Writing of History** Richard Philip Cecil, 1949 **Twilight of History** Shlomo Sand, 2017-04-04 On its publication in 2009 Shlomo Sand's book *The Invention of the Jewish People* met with a storm of controversy His demystifying approach to nationalist and Zionist historiography provoked much criticism from other professional historians as well as praise The furor gave him a privileged position to consider his academic discipline which he reflects on here in *Twilight of History* Drawing on four decades in the field Sand takes a wider view and interrogates the study of history whose origin lay in the need for a national ideology Over the last few decades traditional history has begun to fragment yet only to give rise to a new role for historians as priests of official memory Working in Israel has sharpened Sand's perspective since the role of history as national myth is particularly salient in a country where the Bible is treated as a source of historical fact He asks such questions as Is every historical narrative ideologically marked Do political requirements and state power weigh down inordinately on historical research and teaching And in such conditions can there be a morally neutral and scientific truth Despite his trenchant criticism of academic history Sand would still like to believe that the past can be understood without myth and finds reasons for hope in the work of Max Weber and Georges Sorel The History and Prospects of the Social Sciences Harry Elmer Barnes, 1925 *On Psychoanalytic History and the "real" Story of Fictitious Lives* Richard E. Geha, 1984 *Readers' Guide to Periodical Literature* , 1915 The Writing of History Jean Jules Jusserand, Wilbur Cortez Abbott, Charles William Colby, John Spencer Bassett, 1926 **The Oxford Handbook of Adaptation Studies** Thomas Leitch, 2017-03-17 This collection of forty new essays written by the leading scholars in adaptation studies and distinguished contributors from outside the field is the most comprehensive volume on adaptation ever published Written to appeal alike to specialists in adaptation scholars in allied fields and general readers it harkens back to the foundations of adaptation studies a century and more ago surveys its ferment of activity over the past twenty years and looks forward to the future It considers the very different problems in adapting the classics from the Bible to Frankenstein to Philip Roth and the commons

from online mashups and remixes to adult movies It surveys a dizzying range of adaptations around the world from Latin American telenovelas to Czech cinema from Hong Kong comics to Classics Illustrated from Bollywood to zombies and explores the ways media as different as radio opera popular song and videogames have handled adaptation Going still further it examines the relations between adaptation and such intertextual practices as translation illustration prequels sequels remakes intermediality and transmediality The volume s contributors consider the similarities and differences between adaptation and history adaptation and performance adaptation and revision and textual and biological adaptation casting an appreciative but critical eye on the theory and practice of adaptation scholars and occasionally each other The Oxford Handbook of Adaptation Studies offers specific suggestions for how to read teach create and write about adaptations in order to prepare for a world in which adaptation already ubiquitous is likely to become ever more important

Writings on American History, 1972 *Readers' Guide to Periodical Literature* Anna Lorraine Guthrie, 1915 An author subject index to selected general interest periodicals of reference value in libraries

Studies in the Nature and Teaching of History W H Burston, D Thompson, 2016-04-14 Originally published in 1967 this book is aimed at the student teacher and discusses the philosophy of history and the effective learning of it It discusses the UK secondary school history syllabus with a particular emphasis on whether contemporary history is of more relevance to pupils than traditional history There is a specific chapter on the problems of value judgements in history and history teaching From a psychological point of view the book examines the problems of concept formation the uses and dangers of analogy and the question of imagination and inference in child and adolescent thinking

History and Historians in the Nineteenth Century George Peabody Gooch, 1913 *Carl Becker on History and the American Revolution* Robert Eldon Brown, 1970 For the past fifteen years or more there has been a sharp controversy among historians of the American Revolutionary Era over how this period of American history should be interpreted In great part the controversy revolves around an interpretation made popular by the noted Cornell University historian Carl Becker This book attempts to explain how Becker s training and philosophy of history resulted in his particular interpretation of the Revolution and why in his later years he changed both his philosophy of history and his interpretation
