Detection Of Malingering During Head Injury Litigation:

Detection of Malingering during Head Injury Litigation Cecil R. Reynolds, 2013-03-09 Neuropsychologists and forensic psychologists have long lacked a systematic scientific means of assessing head injury cases of distinguishing those plaintiffs whose pain and suffering is real and deserves just compensation from those who are simply faking it Cecil R Reynolds and his expert contributors provide the first definitive work on this subject focusing on problems that beset clinicians who are called upon to evaluate head injuries in civil courts They describe the major malingering detection techniques currently in use

Detection of Malingering during Head Injury Litigation Cecil R. Reynolds, Arthur MacNeill Horton, Jr., 2012-03-21 Increased public awareness of traumatic brain injuries has fueled a number of significant developments on the one hand more funding and more research related to these injuries and their resulting deficits on the other the possibility of higher stakes in personal injury suits and more reasons for individuals to feign injury Expanding both the conceptual and clinical knowledge base on the subject the Second Edition of *Detection of Malingering during Head Injury Litigation* offers the latest detection tools and techniques for veteran and novice alike As in its initial incarnation this practical revision demonstrates how to combine clinical expertise carefully gathered data and the use of actuarial models as well as common sense in making sound evaluations and reducing ambiguous results And the book navigates the reader through the many caveats that come with the job beginning with the scenario that an individual may be malingering despite having an actual brain injury Among the updated features Specific chapters on malingering on the Halstead Reitan Luria Nebraska and MMPI 2 A framework for distinguishing genuine from factitious PTSD in head injury cases Detailed information regarding performance on the WMT MSVT and NV MSVT by children with developmental disabilities Guidelines for explaining symptom validity testing to the trier of fact Entirely new chapters on mild TBI and on malingering of PTSD symptoms in the context of TBI litigation Professional neuropsychologists and forensic psychologists will appreciate this new edition of *Detection of Malingering during Head Injury Litigation* as an invaluable source of refinements to their craft and improvement as an expert witness

Detection of Malingering During Head Injury Litigation Horton, Jr. (Arthur MacNeill), Cecil R. Reynolds, 2021 Expanding both the conceptual and clinical knowledge base on the subject the Third Edition of *Detection of Malingering during Head Injury Litigation* offers the latest detection tools and techniques for veteran and novice alike Increased public awareness of traumatic brain injuries has fueled a number of significant developments on the one hand more funding and more research related to these injuries and their resulting deficits on the other the possibility of higher stakes in personal injury suits and more reasons for individuals to feign injury As in its earlier editions this practical revision demonstrates how to combine clinical expertise carefully gathered data and the use of actuarial models as well as common sense in making sound evaluations and reducing ambiguous results The book navigates the reader through the many caveats that come with the job beginning with the scenario that an individual may be malingering despite having an actual brain injury Among the updated
