Determining Damages The Psychology Of Jury Awards:

Determining Damages Edie Greene, 2009 This book examines whether jurors are able to assess damages in a fair and predictable manner Jury decisions about damages have been deemed biased capricious unreliable hostile to corporate defendants excessively generous and out of control The authors provide an empirical analysis of the ways that juries determine damage awards They show that in many respects jurors charged with the complex task of compensating the injured and punishing the wrongdoers do a commendable job of it When jury decisions diverge from what we expect the difficulty of the decision making context may be as much to blame as any moral or intellectual failings on the part of individual jurors The authors discuss the factors that influence damage assessment such as the identity of the plaintiff defendant and jurors themselves the severity and nature of the injury and the conduct of the litigants They also examine the different reasoning processes that jurors use to determine what they believe are just awards The book culminates with a discussion that considers whether our jury system should be reformed The authors detailed analysis suggests that the system itself may contribute more to unpredictable and unfounded decisions than does a juror s ability to be fair and reasonable PsycINFO Database Record c 2004 APA all rights reserved

Civil Juries and Civil Justice

Brian H. Bornstein, Richard L. Wiener, Robert Schopp, Steven L. Willborn, 2007-12-03 At last here is an empirical volume that addresses head on the thorny issue of tort reform in the US Ongoing policy debates regarding tort reform have led both legal analysts and empirical researchers to reevaluate the civil jury s role in meting out civil justice Some reform advocates have called for removing certain types of more complex cases from the jury s purview yet much of the policy debate has proceeded in the absence of data on what the effects of such reforms would be In addressing these issues this crucial work takes an empirical approach relying on archival and experimental data It stands at the vanguard of the debate and provides information relevant to both state and national civil justice systems

Handbook of Trial Consulting Richard L.

Wiener, Brian H. Bornstein, 2011-05-06 This volume will be a handbook that treats trial consulting as applied psychology The

purpose of the volume will be to collect the viewpoints of leaders in the field of psychology and law who apply the discipline's theoretical models, methods, and ethics to assist litigators to try cases in the most effective way possible. As a whole, the collection of chapters will describe the theory, business, and mechanics of trial consulting for those interested in learning and practicing the profession. However, it will do so from the perspective of organized theories of jury decision making. In other words, the work of juror researchers will inform the recommendations and suggestions in the handbook. The volume consists of six sections, each pertaining to a different topic. Multiple chapters with different authors will cover each topic. The topics and corresponding seven sections will be: 1. An Introduction to the Theory and Psychology of Jury Decision Making; 2. Applied Research Methodologies for Trial Consultants; 3. Education and Ethical Considerations for Trial Consultants; 4. Preparing and Cross Examining Witnesses; 5. Technology and Demonstrative Evidence at Trial; and 6. Special Topics in Trial Consulting. Each section will begin with the editors' short introduction reviewing that section and explaining its goals, objectives, and content. Separate individuals recognized as leaders in their areas will write the remaining chapters in each section. These individuals come from the fields of both psychology and law and represent viewpoints on these topics from a practice-oriented perspective but a perspective that is emerges from research results. They are affiliated with a number of academic institutions including University of Nebraska, John Jay College of Criminal Justice, University of Texas, University of Chicago, Simon Fraser University, and private law firms.
