Deux Mondes 4th 2001:

Hegel and Schelling in Early Nineteenth-Century France Kirill Chepurin, Adi Eyal-Lautenschläger, Daniel Whistler, Ayşe Yuva, 2023-11-29 Hegel and Schelling in Early Nineteenth Century France is a two volume work that documents the French reception of G W F Hegel and F W J Schelling from 1801 to 1848 It shows that the story of the French Hegel didn't begin with Wahl and Kojève by giving readers a solid understanding of the various ways in which German Idealism impacted nineteenth century French philosophy as well as providing the first ever English language translations of excerpts from the most important philosophical texts of the era Inside volume one readers will find a number of interpretative frameworks to help them get to grips with this neglected field in the history of ideas In addition to excerpted translations and a narrative of Hegel's and Schelling's fate in France during the early nineteenth century this volume includes an introduction on transnational reception history as well as an analytical catalogue of the translations of their work produced in French at this time of the publications which appropriated or interrogated their philosophical legacy and of the journals institutional structures and other mechanisms of dissemination that brought Hegel's and Schelling's philosophy into France The book thus details the ways in which French philosophers of the period took up the debates and concepts of German Idealism transformed them or rejected them In this way it aims to contribute to a reversal of the serious neglect of early nineteenth century French thought in English language scholarship and in so doing goes beyond a nation based narrative of the history of philosophy Figures covered in the volumes include major philosophers such as Cousin Leroux Proudhon Quinet Ravaisson Renouvier and Vico as well as more neglected figures like Bachelard de Penhoën Bernard Leroi Lermier Pictet and Willm
