Developing Democracy Toward Consolidation:

Developing Democracy Larry Diamond, 1999-05-07 The book concludes with a hopeful view of the prospects for a fourth wave of global democratization **Developing democracy** Larry Jay Diamond, 2003 From Transition to Power

Alternation Carl Saxer, 2013-08-21 In 1987 South Korea began a democratic transition after almost three decades of significant economic development under authoritarian rule Increased civil unrest caused by dissatisfaction resulted in the regime agreeing to constitutional changes in the summer of 1987 By 1992 the first president without a military background was elected and during his tenure a further deepening of democracy took place These reforms were instrumental in making it possible that in 1997 for the first time in South Korean history an opposition candidate was elected president This book examines the initial transition and later attempts at consolidating democracy in South Korea and argues that although significant progress had been made and a power alternation achieved by late 1997 South Korea could not by the end of that decade 1987-97 be considered a consolidated democracy Korea's Democratization Samuel S. Kim, 2003-05-19 Table of contents **Democratic Equilibrium** Michael W. Fowler, 2015-11-12 Democratic Equilibrium The Supply and Demand of Democracy defines a model for political change change that results in either an increase or decrease in democracy The book presents a model that builds upon the existing literature to bridge several major gaps in political change theory This book provides a holistic supply and demand model that draws upon works from political science economics and history The work conducts an econometric test of the model and validates the results with field research cases from Mexico the Philippines and Senegal The econometric chapter is a rare quantitative analysis of the effects of violence and development upon democracy This topic is central to contemporary academic and policy debates about how to create democracies consolidate democracies achieve development and improve security especially within developing countries This topic is especially timely as the Arab Spring represents a unique opportunity and challenge for democratic change across the Middle East and North Africa Recent events in Tunisia and Egypt demonstrate that democracy studies remain just as relevant today as they were twenty years ago The findings indicate that common structural explanations of democracy are incomplete since the structural relationships are not stable or constant over time Instead democratic change or lack thereof can be explained using a supply and demand model Key actors including the military political parties NGOs the ruling regime and civil society are the suppliers and consumers that determine a country's resulting level of democracy However stating that actors are important is a major oversimplification Each key actor builds preferences based upon a variety of factors most importantly security income and the adoption of democratic norms It is this key dynamic that explains why insurgency poverty and under development do not have a linearly negative effect on democracy Instead these factors have a centripetal effect on political development pulling a country's government towards an intermediate state of political transition in which regimes stagnate in a partially democratic partially autocratic regime type Conversely the model also explains why high income democratic

norms and security do not necessarily lead to democratization in all cases African Democratic Montage E. Ike Udogu, 2025-03-10 African Democratic Montage Case Studies on Ghana Zimbabwe Tanzania Ethiopia and Kenya explores the challenges African states face in achieving democratic consolidation The book highlights that these countries have constitutional tools human rights frameworks the African Union's code of leadership and democratic election principles to foster good governance However their varied application of these tools leads to different democratic outcomes Coincidentally the book addresses the resurgence of military coups in some African countries exposing democracy's fragility and calling for solutions to prevent future coups It provides a brief history of each country's pre colonial colonial and post colonial periods showcasing their unique democratic journeys The volume notes that the struggle for democratic consolidation is hindered by issues in electoral contests and human rights violations Nevertheless it suggests that enforcing constitutional human rights and adhering to African Union declarations can promote good governance democratic consolidation peaceful coexistence and national cohesion **Civil Society and the Development of Democracy** Larry Diamond, 1997 Prospects for democratic regime change in Cuba and Belarus civil society and political culture Nico Rausch, 2008-09-23 Master's Thesis from the year 2008 in the subject Politics Political systems in general and in comparison grade 1-3 Vilnius University language English abstract This thesis studies the prospects for democratic transition in Cuba and Belarus The theoretical part argues that civil society is an important variable in transition theory and a necessary condition for democratic transition It furthermore argues that in relation with the political culture of one society and the respective type of regime present in one country it is decisive for a successful democratization Therefore the theoretical framework to study democratic transition should be widened from elites to masses and from a short term perspective to a long term one This is somewhat different from other studies that concentrate on structural factors like economic development economic crisis or international influence to explain democratic transition This thesis undertakes a qualitative comparative analysis of two nontransition cases Belarus and Cuba to avoid the selection bias of researching only successful cases of democratic transition and to solve the problem of not finding any individually necessary or jointly sufficient conditions for democratization The aforementioned factors are analyzed for each case comparing the main findings and drawing conclusions The analysis shows that the state of civil society in both countries can only be characterized as embryonic In the case of Belarus the relatively good starting position of the embryonic civil society after the dissolution of the USSR was not used to strengthen itself The civil society forces lost continuously support and strength and therefore the ability to fight for democratic transition The weakness of the Belarusian civil society was therefore a factor that led to a stabilizing of the authoritarian regime **From Authoritarianism to Consolidated Democracy in South Korea** Jung-Kwan Cho, 2001 **Latin American Political Culture** John A. Booth, Patricia Bayer Richard, 2014-10-30 Latin American Political Culture Public Opinion and Democracy presents a genuinely pan Latin American examination of the region's contemporary political culture This is the only book to

extensively investigate the attitudes and behaviors of Latin Americans based on the Latin American Public Opinion Project s LAPOP AmericasBarometer surveys The findings reveal a complex Latin America with distinct political culture Authors John Booth and Patricia Bayer Richard join rigorous analysis with clear graphic presentation and extensive examples and readers learn about public opinion research engage with further questions for analysis and have access to data an expansive bibliography and links to appendices *Progress Towards Consolidated Democracy in Namibia* Christiaan Keulder,2003
