Development and Social Change Philip McMichael, Heloise Weber, 2020-12-15 Development and Social Change A Global Perspective describes the dramatic acceleration of the global and political economy in four parts colonialism the development era the current era of globalization and global counter movements for equity and sustainability

Development and Social Change Philip McMichael, 2012 Explores development through historical narrative and examines the globalization development paradox through in depth case studies In his Fifth Edition of Development and Social Change A Global Perspective author Philip McMichael examines the project of globalization and its instabilities climate energy food financial crises through the lens of development and its origins in the colonial project The book continues to help students make sense of a complex world in transition and explains how globalization became part of public discourse Filled with case studies this text makes the intricacies of globalization concrete meaningful and clear for students and moves them away from simple social evolutionary views encouraging them to connect social change development policies global inequalities and social movements The book challenges students to see themselves as global citizens whose consumption decisions have real social and ecological implications Key Features a world historical perspective that situates globalization in the declining fortunes of the postwar development project and considers current global limits and possibilities a political perspective that views development and globalization as discursive practices managed by historic elite groupings as mechanisms of power and world ordering an ecological perspective drawing attention to the environmental consequences of development and attempts to reintegrate social life in ecological cycles an emphasis on resistance and social movements as actors shaping the meaning and direction of these projects in addition to building alternatives a series of case studies that allow in depth examination of development globalization dilemmas and paradoxes to interrupt the idea of a linear process New to the Fifth Edition developmental impacts of the rise of the BRICS structural adjustment and new inequalities come to the global North de growth philosophies the re centering of agriculture in light of the food energy and climate crises land grabbing and biofuels green technologies and climate proofing transition towns and re localization new democratic movements

Social Change and Development Alvin Y. So, 1990-03 During the past four decades the field of development has been dominated by three schools of research The 1950s saw the modernization school the 1960s experienced the dependency school the 1970s developed the new world system school and the 1980s is a convergence of all three schools Alvin Y So examines the dynamic nature of these schools of development what each of them represents their contributions how they have criticized each other

how they have defended themselves and how they were transformed He reviews a variety of empirical studies focusing on the classical and the new models to show how each of the perspectives affects the study of development In addition this book features a unique emphasis on the research implications of the three perspectives involving changes in orientation agenda methodology and findings *Transformative learning, teaching and action in the most challenging times* Lili-Ann Wolff,Kerry Shephard,Marco Rieckmann,Pedro Vega-Marcote,Dina Zoe Belluigi,Saiki Lucy Cheah,Frode Skarstein,2023-01-17 **Environment, Climate, and Social Justice** Devendraraj Madhanagopal,Christopher Todd Beer,Bala Raju Nikku,André J. Pelser,2022-07-09 This book approaches environmental climate and social justice comprehensively and interlinked The contributors predominantly from the Global South and have lived experiences challenge the eurocentrism that dominates knowledge production and discourses on environmental and climate in justices The collection of works balances theoretical empirical and practical aspects to address environmental and climate justice challenges through the lens of social justice This book gives voice to scholars of the Global South and uses an interdisciplinary approach to show the complexity of the problem and the opportunities for solutions making this book a powerful resource in teaching research and advocacy efforts The innovativeness of this approach stems from the use of narratives scientific explanation and thematic analysis to present the arguments in each chapter of this edited book Overall each chapter of this book acts as a powerful resource in teaching research and advocacy efforts This book fills a gap in the Global South production of environmental climate and social justice It provides in depth knowledge to the readers and raises their critical thinking about key elements discussions of justice issues of environmental conflicts and climate change The book is a useful read to a general audience interested in the topic of climate environment and development politics
