Humanizing Online Teaching and Learning in Higher Education Gray, Laura E.,Dunn, Shernette D.,2024-03-11

The surge in enrollment for online courses is continually increasing However beneath the convenience lies a challenge that demands a resolution Educators administrators and instructional designers must ensure that the human element is not lost in the virtual corridors of learning Students with diverse backgrounds and learning needs require more than a simple virtual classroom Research reveals a concerning trend high attrition rates in online courses often attributed to a lack of engagement and insufficient human interaction To reverse this trend deliberate measures must be taken to humanize the online learning environment This book provides several solutions offering an array of tools and strategies to promote engagement and infuse the human touch into online spaces To confront this multi layered challenge it becomes paramount to undertake deliberate measures aimed at humanizing the online learning environment Humanizing Online Teaching and Learning in Higher

Education steps forward as a guide offering an extensive array of tools and strategies meticulously crafted to foster student engagement and infuse the essential human touch into the digital educational landscape Reading and Writing Place Erika L. Bass,Amy Price Azano,2024-02-27 In Reading and Writing Place Connecting Rural Schools and Communities Erika L Bass and Amy Price Azano suggest there is a need to add nuance to the ways we consider and engage with place in the classroom Using a narrative writing project completed with two rural schools in two states the authors provide an explanation of critical placed education and how students explorations of place through writing led the authors to develop a concept of place Big P and small p place Students explorations of place highlighted the how internalizations and externalizations of place impact identity formation and sense of belonging Program Evaluation Susan P. Giancola,2025-04-14 This text aims to build

evaluation capacity by increasing knowledge about evaluation and improving skills to conduct evaluations The book s embedded approach uses program theory to understand relationships between activities and objectives logic modeling to represent the program s theory and an evaluation matrix to structure the evaluation within the program The approach is systematic and focused on continuous improvement The Second Edition adds topics suggested by users of the book incorporates content that the author has added to her own classes and covers emerging areas in evaluation since the publication of the first edition such as artificial intelligence and equity in evaluation A companion website at <http://edge.sagepub.com> Giancola2e includes a number of instructor resources including editable PowerPoint slides and assignments
