My Therapist Is an AI - Can a Machine Understand the Human Soul? Leopoldo Ceballos del Castillo, 2025-07-23 Today between 500 and 700 million people around the world use artificial intelligence the so called chatbots to talk about their emotions seek comfort or resolve personal conflicts In numerous documented cases these interactions have led to psychotic episodes severe crises or decisions driven by misleading advice hallucinations or fabricated information generated by the AI itself Leopoldo Ceballos drawing on his dual background as a computer engineer and psychologist offers a bold and clarifying perspective to understand why millions of people prefer to talk to a machine instead of another human being and what we can do as a society to address this trend without giving up on our humanity The result is a critical and practical guide for using AI responsibly recognizing its real risks exploring accessible human alternatives and applying prompt engineering principles to minimize errors and misunderstandings when no other option is available A book for those brave enough to look beyond the glow of technology and ask themselves Are we truly ready to talk about our emotions with an artificial intelligence

Mi Terapeuta Es Una IA. Leopoldo Ceballos del Castillo, 2025-07-23 Hoy entre 500 y 700 millones de personas en todo el mundo utilizan inteligencias artificiales los llamados chatbots para hablar de sus emociones buscar consuelo o resolver conflictos personales En numerosos casos documentados estas interacciones han derivado en psicosis crisis graves o decisiones impulsadas por consejos err neos alucinaciones o informaci n inventada por la propia IA Leopoldo Ceballos desde su doble formaci n como ingeniero inform tico y psic logo propone un enfoque valiente y esclarecedor entender por qu millones de personas prefieren hablar con una m quina antes que con otro ser humano y qu podemos hacer como sociedad para responder a esa tendencia sin renunciar a lo humano El resultado es una gu a cr tica y pr ctica para utilizar la IA de forma responsable conocer sus riesgos reales explorar alternativas humanas accesibles y aplicar principios de ingenier a de prompts para reducir errores y malentendidos cuando no hay otra opci n Un libro para quienes se atrevan a mirar m s all del brillo de la tecnolog a y preguntarse Estamos realmente preparados para hablar de nuestras emociones con una inteligencia artificial

Academia Next Bryan Alexander, 2020-01-14 From the renowned futurist a look at how current trends will transform American higher education over the next twenty years 2020 Most Significant Futures Work Award Winner Association of Professional Futurists The outlook for the future of colleges and universities is uncertain Financial stresses changing student populations and rapidly developing technologies all pose significant challenges to the nation s colleges and universities In Academia Next futurist and higher education expert Bryan Alexander addresses these evolving trends to better understand higher education s next generation Alexander first examines current economic demographic political international and policy developments as they relate to higher education He also explores internal transformations within postsecondary institutions including those related to enrollment access academic labor alternative certification sexual assault and the changing library paying particularly close attention to technological changes Alexander then looks beyond

these trends to offer a series of distinct scenarios and practical responses for institutions to consider when combating shrinking enrollments reduced public support and the proliferation of technological options Arguing that the forces he highlights are not speculative but are already in play Alexander draws on a rich extensive and socially engaged body of research to best determine their likeliest outcomes It is only by taking these trends seriously he writes that colleges and universities can improve their chances of survival and growth An unusually multifaceted approach to American higher education that views institutions as complex organisms Academia Next offers a fresh perspective on the emerging colleges and universities of today and tomorrow
