Day Of A Virtual Poet:

Day Book of a Virtual Poet Robert Creeley, 1998 Nonfiction Poetics DAY BOOK OF A VIRTUAL POET provides a unique entrance into the ideas and practices into the life finally of one of our great writers Burt Kimmelman This unique book is a record of e mail letters from Robert Creeley to high school students participating in an online honors poetry course It explores the educational possibilities of a medium that has become second nature to people across the generations Creeley All the tendentious proposals as to why write in Pound s useful phrase finally fade to the one point W C Williams made by saying Why don t we tell them it s fun Not just the authority of endless revisions not just the lists of publications or prizes won not just the company of poets of public record just fun Fun Fun I don t think a book has so pleased me in years just that it came so unintentionally to hand More than anything else it was a place to say a great many things as a poet to make clear what I valued to keep the faith in my own way

The Collected Poems of Robert Creeley, 1945-1975 Robert Creeley, 2006 A collection of Creeley s work gathered from obsolesced collections small press booklets and little mags Here one can trace the development of his poetry from its early break with the Eliot Auden tradition to the development of his own distinct voice in the middle poems such as Words and Pieces known for their precise terse and almost minimalist language as well as his return to the more direct concern for love and humanity Restores to print For Love The Charm In London His Idea Thirty Things Backwards Away and previously uncollected poems

A History of Ottoman Poetry Elias John Wilkinson Gibb, 1902

Poetry, Method and Education Research Esther Fitzpatrick, Katie Fitzpatrick, 2020-07-21 Poetry can be both political and pedagogical It is utilised in a variety of ways in research to enhance critique analyse and express different voices Poetry Method and Education Research brings together international scholars to explore issues as diverse as neoliberalism culture decolonising education health and teacher identities A key strength of the book is its attention to poetry as a research method including discussions of how to engage with poetry in research as well as including a range of research poems Poetry is thus framed as both a method and performance Authors in this book address a wide variety of questions from different perspectives including how to use poetry to think about complex issues in education where poetry belongs in a research project how to write poetry to generate and analyse data and how poetry can represent these findings This book is an essential resource for students and researchers in education programmes and those who teach in graduate research methods courses

activities you can implement immediately *Writing and Representing Qualitative Research* Maria K. E. Lahman, 2021-08-25

This book addresses foundational areas of qualitative writing such as journal articles and dissertations aesthetic representations including poetry and autoethnography publishing and reflexivity in representation in one practical and engaging text based on real experiences Author Maria K E Lahman draws on her experiences as a qualitative research professor and writing instructor and as someone who has published widely in scholarly journals employing both traditional and more innovative forms of writing The first part of the book covers writing tips how to represent data how to write a qualitative thematic journal article how to write a qualitative dissertation and provides guidance on the publication process The second part encourages the qualitative researcher to move beyond traditional forms of writing and consider how qualitative research can be represented more aesthetically as poems autoethnographies and visually The book concludes with a chapter on reflexivity in research representations Throughout the author provides vivid examples from her own work and that of graduate students and colleagues **Finance Fictions** Arne De Boever, 2018-03-06 Finance Fictions takes the measure of what it means to live in a world ruled by high finance by examining the tension between psychosis and realism that plays out in the contemporary finance novel When the things traded at the center of the economy cease to be things at all but highly abstracted speculations how do we come to see the real What sorts of narrative can accurately approach the actual workings of a neoliberal economy marked by accelerating cycles of market crashes economic and political crisis and austerity Revisiting such twentieth century classics of the genre as Tom Wolfe s Bonfire of the Vanities and Bret Easton Ellis s American Psycho De Boever argues that the twenty first century is witnessing the birth of a new kind of realistic novel that can make sense of complex financial instruments like collateralized debt obligations credit default swaps and digital algorithms operating at speeds faster than what human beings or computers can record If in 1989 Wolfe could still urge novelists to work harder to tame the billion footed beast of reality today s economic reality confronts us with a difference that is qualitative rather than quantitative a new financial ontology requiring new modes of thinking and writing Mobilizing the philosophical thought of Quentin Meillassoux in the close reading of finance novels by Robert Harris Michel Houellebecq Ben Lerner and less well known works of conceptual writing such as Mathew Timmons Credit Finance Fictions argues that realism is in for a speculative update if it wants to take on the contemporary economy and if whose implications turn out to be deeply political Part literary study and part philosophical inquiry Finance Fictions seeks to contribute to a new mindset for creative and critical work on finance in the twenty first century Prehistoric Digital Poetry Christopher Thompson Funkhouser, 2007-06-24 Explores pioneering works of digital poetry and demonstrates how technological constraints that would seemingly limit the aesthetics of poetry have instead extended and enriched poetic discourse For the last five decades poets have had a vibrant relationship with computers and digital technology This book is a documentary study and analytic history of digital poetry that highlights its major practitioners and the ways that they have used technology to foster a new

aesthetic Focusing primarily on programs and experiments produced before the emergence of the World Wide Web in the mid 1990s C T Funkhouser analyzes numerous landmark works of digital poetry to illustrate that the foundations of today's most advanced works are rooted in the rudimentary generative visual and interlinked productions of the genre's prehistoric period Since 1959 computers have been used to produce several types of poetic output including randomly generated writings graphical works static animated and video formats and hypertext and hypermedia Funkhouser demonstrates how hardware programming and software have been used to compose a range of new digital poetic forms Several dozen historical examples drawn from all of the predominant approaches to digital poetry are discussed highlighting the transformational and multi faceted aspects of poetic composition now available to authors This account includes many works in English and other languages which have never before been presented in an English language publication In exploring pioneering works of digital poetry Funkhouser demonstrates how technological constraints that would seemingly limit the aesthetics of poetry have instead extended and enriched poetic discourse As a history of early digital poetry and a record of an era that has passed this study aspires both to influence poets working today and to highlight what the future of digital poetry may hold
