De Invocatione Beatae Mariae Virginis Paracelsus Und Die Marienverehrung:

"De invocatione beatae Mariae virginis" Katharina Biegger, 1990 **Paracelsus's Theory of Embodiment** Amy Eisen Cisló, 2015-09-30 Paracelsus has been called the father of modern chemistry and is legendary for his treatment of syphilis. This work argues that Paracelsus developed an understanding of the body as composed of two distinct sexes revolutionizing early modern conceptions of the female body as an inversion of or flawed approximation of the male body.

Pseudo-Paracelsus, 2021-11-29 The production of forgeries under the name of the Swiss physician Paracelsus 1493-1541 was an integral part of the diffusion of the Paracelsian movement in early modern Europe. Many of these texts were widely read and extremely influential. The inability of most readers of the time to distinguish the genuine from the fake amid the flood of publications contributed much to the emergence of Paracelsus' legendary image as the patron of alchemy and occult philosophy. Innovative studies on largely overlooked aspects of Paracelsianism along with an extensive catalogue of Paracelsian forgeries make this volume an essential resource for future studies. Contributors are Tobias Bulang, Daniel T. Charles, D. Gunnoe Jr., Hiro Hirai, Didier Kahn, Julian Paulus, Lawrence M. Principe, and Martin Emla. Originally published as Special Issue of the journal *Early Science and Medicine* volume 24, 2019, no. 5-6, published February 2020 with a revised Introduction and a new Appendix by Julian Paulus entitled *A Catalogue Raisonné of Pseudo-Paracelsian Writings*. Texts attributed to Paracelsus and Paracelsian Writings of Doubtful Authenticity have been added. **All Things Made New** Diarmaid MacCulloch, 2016 The most profound characteristic of Western Europe in the Middle Ages was its cultural and religious unity, a unity secured by a common alignment with the Pope in Rome and a common language, Latin, for worship and scholarship. The Reformation shattered that unity, and the consequences are still with us today. In *All Things Made New*, Diarmaid MacCulloch, author of the New York Times bestseller *Christianity: The First Three Thousand Years*, examines not only the Reformation's impact across Europe but also the Catholic Counter-Reformation and the special evolution of religion in England, revealing how one of the most turbulent, bloody, and transformational events in Western history has shaped modern society. The Reformation may have launched a social revolution, MacCulloch argues, but it was not caused by social and economic forces or even by a secular idea like nationalism; it sprang from a big idea about death, salvation, and the afterlife. This idea, that salvation was entirely in God's hands and there was nothing humans could do to alter his decision, ended the Catholic Church's monopoly in Europe and altered the trajectory of the entire future of the West. By turns passionate, funny, meditative, and subversive, *All Things Made New* takes readers onto fascinating new ground, exploring the original conflicts of the Reformation and cutting through prejudices that continue to distort popular conceptions of a religious divide still with us after five centuries. This monumental work from one of the most distinguished scholars of Christianity writing today explores the ways in which historians have told the tale of the Reformation, why their interpretations have changed so dramatically over time, and ultimately how the contested legacy of this revolution continues.
