Biographical Essays Thomas de Quincey, 1851-01-01 It sounds paradoxical but is not so in a bad sense to say that in every literature of large compass some authors will be found to rest much of the interest which surrounds them on their essential non popularity They are good for the very reason that they are not in conformity to the current taste They interest because to the world they are not interesting They attract by means of their repulsion Not as though it could separately furnish a reason for loving a book that the majority of men had found it repulsive Prima facie it must suggest some presumption against a book that it has failed to gain public attention To have roused hostility indeed to have kindled a feud against its own principles or its temper may happen to be a good sign That argues power Hatred may be promising The deepest revolutions of mind sometimes begin in hatred But simply to have left a reader unimpressed is in itself a neutral result from which the inference is doubtful Yet even that even simple failure to impress may happen at times to be a result from positive powers in a writer from special originalities such as rarely reflect themselves in the mirror of the ordinary understanding It seems little to be perceived how much the great scriptural idea of the worldly and the unworldly is found to emerge in literature as well as in life In reality the very same combinations of moral qualities infinitely varied which compose the harsh physiognomy of what we call worldliness in the living groups of life must unavoidably present themselves in books A library divides into sections of worldly and unworldly even as a crowd of men divides into that same majority and minority The world has an instinct for recognizing its own and recoils from certain qualities when exemplified in books with the same disgust or defective sympathy as would have governed it in real life From qualities for instance of childlike simplicity of shy profundity or of inspired self communion the world does and must turn away its face towards grosser bolder more determined or more intelligible expressions of character and intellect and not otherwise in literature nor at all less in literature than it does in the realities of life Charles Lamb if any ever was is amongst the class here contemplated he if any ever has ranks amongst writers whose works are destined to be forever unpopular and yet forever interesting interesting moreover by means of those very qualities which guarantee their non popularity The same qualities which will be found forbidding to the worldly and the thoughtless which will be found insipid to many even amongst robust and powerful minds are exactly those which will continue to command a select audience in every generation The prose essays under the signature of Elia form the most delightful section amongst Lamb s works They traverse a peculiar field of observation sequestered from general interest and they are composed in a spirit too delicate and unobtrusive to catch the ear of the noisy crowd clamoring for strong sensations But this retiring delicacy itself the pensiveness chequered by gleams of the fanciful and the humor that is touched with cross lights of pathos together with the picturesque quaintness of the objects casually described whether men or things or usages and in the rear of all this the constant recurrence to ancient recollections and to decaying forms of household life as things retiring before the tumult of new and revolutionary generations these traits in combination

communicate to the papers a grace and strength of originality which nothing in any literature approaches whether for degree or kind of excellence except the most felicitous papers of Addison such as those on Sir Roger de Coverly and some others in the same vein of composition
