De Reis Van De Lege Fleben Roman:

Migrant Cartographies Sandra Ponzanesi, Daniela Merolla, 2005-01-01 In recent years Europe has had to constantly rethink and redefine its attitude toward new flows of immigrations Issues of boundaries and identity have been integral to this reflection Through a magnificent collection of essays Migrant Cartographies examines both sites and conflicts and the way in which forms of belonging and identity have been reinvented With careful analysis and exceptional insight this volume explores the most recent literature on migration as seen from different European viewpoints This book fills a conspicuous void in migration literature as there are no comprehensive books on migrant literatures in Europe that address the full range of complexities of colonial legacies and linguistic productions
