Dead White Male:

Dead White Males David Williamson, 2000 *Disrobed* Mark W. Smith, 2006-06-13 ATTENTION CONSERVATIVES Forget everything you think you know about the courts and arm yourselves with this brand new urgently needed battle plan to defeat the Left's legal assault on America How to Bring the Reagan Revolution to America's Courts FINALLY With the Harriet Miers fiasco a distant memory and John Roberts and Samuel Alito sitting on the Supreme Court conservatives can finally stop worrying about the courts right Wrong Dead wrong America's courts legal culture and law schools remain solidly in the Left's camp Decades of liberal legal precedents fill volumes of law tomes Absent a sweeping change precisely what bestselling author Mark W Smith calls for in *Disrobed* liberals will ruthlessly exploit their dominant position in the law to continue advancing their radical agenda as they have for the past seventy years Smith a nationally recognized attorney lays out an aggressive new battle plan to thwart the liberal assault on America by turning the courts into allies of the conservative movement Be warned *Disrobed* is not for the fainthearted Smith implores conservatives Toss out practically everything you think you know about courts judges and American law because it's naive anachronistic and self defeating Fearlessly challenging the conventional conservative wisdom *Disrobed* reveals Why conservatives must immediately embrace not decry judicial activism A bold new model for finding strong conservative judges behold the Judicial Reagan Why litmus tests so often vilified represent the only way to pick reliable conservative judges How to get sitting judges to evolve finally to the right How the Right can sue more to advance the conservative agenda on guns taxes immigration the right to life you name it How conservatives can turn liberals favorite court rulings against them The hard truth that who wins in the courts often depends more on politics and ideology than on the rule of law Smith reminds us that courts judges and lawyers need not be enemies of the Right and can even serve as valuable allies in the war against liberalism But as his groundbreaking book shows conservatives must force this change by taking swift action *Disrobed* issues a call to arms to all conservatives revealing that the courts are far too important to be left to the devices of academics lawyers and politicians Conservatives Smith writes must accept and adapt our strategies to the reality of the modern law even when the truth is uncomfortable Otherwise the conservative political agenda and the American way of life will keep getting destroyed legal case by legal case in the courts Also available as an eBook From the Hardcover edition *Old Dead White Men's Philosophy* Laura Lyn Inglis, Peter K. Steinfeld, 2000-07 No Marketing Blurb **Genre Fission** Marleen S. Barr, 1998-10 What do Amsterdam prostitutes NASA astronauts cross dressing texts and Star Trek characters have in common In *Genre Fission* Marleen Barr wittily and eccentrically revitalizes cultural and literary theory by examining the points where such vastly different categories meet converge and reemerge as something new *Animating Black and Brown Liberation* Michael Datcher, 2019-04-01 *Animating Black and Brown Liberation* introduces a vital new tool for reading American literatures Rooted in both ancient Egyptian ideas about life and cutting edge theories of animacy or levels of aliveness this tool ankhing

enables Michael Datcher to examine the ways African American and Latinx literatures respond to and ultimately work to resist hegemonic forces of neoliberalism and state sponsored oppression Weaving together close readings and politically informed philosophical reflection Datcher considers the work of writer activists Toni Cade Bambara Cherr e Moraga Gloria Anzald a June Jordan Salvador Plascencia and Ishmael Reed in light of theoretical interventions by Jane Bennett Mel Y Chen Bruno Latour Michel Foucault Paulo Freire and Erica R Edwards How he asks can cultural production positively influence Black and Brown material conditions and mobilize collective action off the page How can art based counterpublics provide a foundation for Black and Brown community organizing What emerges from Datcher s innovative analysis is a frank assessment of the links between embodied experiences of racialization as well as a distinctive vision of twentieth and twenty first century American literature as a repository of emancipatory strategies with real world applications **The War**

Against the Past Frank Furedi, 2024-08-20 A war is being waged against the Past Whether it s toppling statues decolonising the curriculum or erasing terms from our vocabulary a cultural crusade is underway designed to render the past toxic It is condemned as enemy territory and has become the target of venomous hate What is at stake in provoking such a strong sense of societal shame towards Western history In this book Frank Furedi mounts a fierce defence of the past and calls for a fight back against the delegitimization of its ideals and accomplishments Casting the past as a story of shame has become a taken for granted outlook permeating the educational and cultural life of western society from the top down Its advocates may see it as a cultural imperative but a society that loses touch with its past will face a permanent crisis of identity

Squandering the wisdom provided by our historical inheritance means betraying humanity s positive achievements Challenging this great betrayal Furedi argues is one of the most important battles of our time *The Humanities, the Social Sciences and the University* Harry Redner, 2023-05-31 The Humanities the Social Sciences and the University is an intellectual history of research in the humanities and social sciences It scrutinizes the priorities values objectives and publishing agendas of the modern university in order to assess the institutional pressures on research in major disciplines such as literature history sociology and economics It argues that all these disciplines are currently experiencing a deep malaise though to different degrees due to loss of faith in the Enlightenment project which entailed the pursuit of knowledge through reason Extreme scepticism promoted since the 1970s by French Theory which regards knowledge as an instrument of power is a major factor in this disorientation Overall the book concludes that though universities have grown stronger wealthier and more powerful in the last century the quality and seriousness of the research they typically produce are weaker and intellectually less important and the institution is in danger of losing its way An accessible and compelling read this book will appeal to scholars of sociology education and intellectual history with interests in higher education policy and academic life Rising Class Jennifer Miller, 2023-03-28 This eye opening YA narrative nonfiction follows three first
