Dead Certainties Unwarranted Speculations:

Dead Certainties Simon Schama, 1991 Like his *The Embarrassment of Riches* and the bestselling *Citizens* Simon Schama's latest book is both history and literature of immense stylishness and ambition But *Dead Certainties* goes beyond these more conventional histories to address the deeper enigmas that confront a student of the past In order to do so Schama reconstructs and at times reinvents two ambiguous deaths the first that of General James Wolfe at the battle of Quebec in 1759 the second in 1849 that of George Parkman an eccentric Boston brahmin whose murder by an impecunious Harvard professor in 1849 was a grisly reproach to the moral sanctity of his society Out of these stories with all of their bizarre coincidences and contradictions Schama creates a dazzling and supremely vital work of historical imagination From the Trade Paperback edition

History and Fiction in Natalie Zemon Davis's *The Return of Martin Guerre* and Simon Schama's *Dead Certainties (unwarranted Speculations)* Diana Solano, 1993

A Sense of the World John Gibson, Wolfgang Huemer, Luca Poggi, 2012-11-12 A team of leading contributors from both philosophical and literary backgrounds have been brought together in this impressive book to examine how works of literary fiction can be a source of knowledge Together they analyze the important trends in this current popular debate The innovative feature of this volume is that it mixes work by literary theorists and scholars with work of analytic philosophers that combined together provide a comprehensive statement of the variety of ways in which works of fiction can engage questions of worldly interest It uses the problem of cognitive value to explore literature's contribution to ethical life literature's ability to engage in social and political critique the role narrative plays in opening up possibilities of moral aesthetic experience and selfhood This remarkable volume will attract the attention of both literature and philosophy scholars with its statement of the various ways that literature and life take an interest in one another

Speculative Biography Donna Lee Brien, Kiera Lindsey, 2021-09-30 While speculation has always been crucial to biography it has often been neglected denied or misunderstood This edited collection brings together a group of international biographers to discuss how and why each uses speculation in their work whether this is to conceptualise a project in its early stages work with scanty or deliberately deceptive sources or address issues associated with shy or stubborn subjects After defining the role of speculation in biography the volume offers a series of work in progress case studies that discuss the challenges biographers encounter and address in their work In addition to defining the speculative spectrum within the biographical endeavour the collection offers a lexicon of new terms to describe different types of biographical speculation and more deeply engage with the dynamic interplay between research subjectivity and that which Natalie Zemon Davis dubbed informed imagination By mapping the field of speculative biography the collection demonstrates that speculation is not only innate to biographical practice but also key to rendering the complex mystery of biographical subjects be they human animal or even metaphysical

Experience and Teleology in Ancient Historiography Jonas Grethlein, 2013-10-17 This book explores the tension in ancient historiography between teleological

design and narrating the past as it was experienced by historical characters Possible Worlds of Fiction and History
Lubomír Doležel, 2010-04-05 With *Possible Worlds of Fiction and History* Lubomír Doležel reexamines the claim made first by Roland Barthes and then popularized by Hayden White that there is no fundamental distinction between fiction and history. Doležel rejects this assertion and demonstrates how literary and discourse theory can help the historian to restate the difference between fiction and history. He challenges scholars to reassess the postmodern viewpoint by reintroducing the idea of possible worlds. Possible worlds semantics reveals that possible worlds of fiction and possible worlds of history differ in their origins, cultural functions, and structural and semantic features. Doležel's book is the first systematic application of this idea to the theory and philosophy of history. *Possible Worlds of Fiction and History* is the crowning work of one of literary theory's most engaged thinkers. *New York Magazine*, 1991-04-22 *New York Magazine* was born in 1968 after a run as an insert of the *New York Herald Tribune* and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea. **Savage Reprisals: Bleak House, Madame Bovary, Buddenbrooks**
Peter Gay, 2003-12-17 A revelatory work that examines the intricate relationship between history and literature, truth and fiction, with some surprising conclusions. Focusing on three literary masterpieces: Charles Dickens's *Bleak House* (1853), Gustave Flaubert's *Madame Bovary* (1857), and Thomas Mann's *Buddenbrooks* (1901), Peter Gay, a leading cultural historian, demonstrates that there is more than one way to read a novel. Typically, readers believe that fiction, especially the Realist novels that dominated Western culture for most of the nineteenth century and beyond, is based on historical truth and that great novels possess a documentary value. That trust, Gay brilliantly shows, is misplaced: novels take their own path to reality. Using Dickens, Flaubert, and Mann as his examples, Gay explores their world, their craftsmanship, and their minds. In the process, he discovers that all three share one overriding quality: a resentment and rage against the society that sustains the novel itself. Using their stylish writing as a form of revenge, they deal out savage reprisals which have become part of our Western literary canon.
