Grindhouse Austin Fisher, Johnny Walker, 2016-09-22 The pervasive image of New York's 42nd Street as a hub of sensational thrills vice and excess is from where grindhouse cinema the focus of this volume stemmed It is arguably an image that has remained unchanged in the mind's eye of many exploitation film fans and academics alike Whether in the pages of fanzines or scholarly works it is often recounted how should one have walked down this street between the 1960s and the 1980s one would have undergone a kaleidoscopic encounter with an array of disparate exploitation films from all over the world that were being offered cheaply to urbanites by a swathe of vibrant movie theatres The contributors to Grindhouse Cultural Exchange on 42nd Street and Beyond consider grindhouse cinema from a variety of cultural and methodological positions Some seek to deconstruct the etymology of grindhouse itself add flesh to the bones of its cadaverous history or examine the term's contemporary relevance in the context of both media production and consumerism Others offer new inroads into hitherto unexamined examples of exploitation film history presenting snapshots of cultural moments that many of us thought we already knew

How the 1970s energy crisis facilitated a neoliberal shift in US political culture. In *Energizing Neoliberalism* Caleb Wellum offers a provocative account of how the 1970s energy crisis helped to recreate postwar America. Rather than think of the crisis as the obvious outcome of the decade's oil shocks, Wellum unpacks the cultural construction of a crisis of energy across different sectors of society from presidents, policy experts and environmentalists to filmmakers, economists and oil futures traders. He shows how the dominant meanings ascribed to the 1970s energy crisis helped to energize neoliberal visions of renewed abundance and power through free market values and approaches to energy. Deeply researched in federal archives, expert discourse and popular culture, *Energizing Neoliberalism* demonstrates the central role that energy crisis narratives played in America's neoliberal turn. Wellum traces the roots of the crisis to the consumption practices and cultural narratives spawned by the petrocultural politics of Cold War capitalism. In a series of illuminating case studies including 1970s energy conservation debates, popular car films and the creation of oil futures trading, Wellum chronicles the consolidation of a neoliberal capitalist order in the United States through an energy politics marked by anxious futurity, petro-populist sentiment and financialized energy markets. He shows how experiences of energy shortages and fears of future energy crises unsettled American national identity and power yet also informed Reagan era confidence in free markets and US global leadership. In taking a cultural approach to the 1970s energy crisis, Wellum offers a challenging meditation on the status of crisis in modern history, contemporary life and critical thought and how we rely on crises to make sense of the world. *Los Angeles, a city on film* Thom Andersen, 2008. *VideoHound's Golden Movie Retriever* 1999.
