Practical Creator Economy Trends With Low Investment

Daniel F McAuley

Practical Creator Economy Trends With Low Investment:

Cases on Circular Economy in Practice De Giovanni, Pietro, 2022-06-30 In today's business world firms and policymakers all utilize circular economy. However, there is a lack of knowledge on how circular economy systems work, which technologies are used, which partners firms should look for, which agreements are required to pursue circular economy, how circular economy interacts with legislation, and what benefits it provides. Additional study on the opportunities and challenges of circular economy is required to ensure business leaders are well informed. *Cases on Circular Economy in Practice* considers how circular economy systems are implemented and managed in practice, which strategic alliances firms pursue, and how they are coordinated through negotiation and agreements. The book also considers the technologies that circular economy systems use to achieve circularity and how performances are measured in terms of economic, social, and environmental pillars. Covering topics such as blockchain technology, smart cities, and circular business, this reference work is ideal for managers, business owners, industry professionals, researchers, academicians, scholars, practitioners, instructors, and students.

Proceedings of the 2nd International Conference on Trends in Architecture and Construction Anurag Varma, Vikas Chand Sharma, Elena Tarsi, 2024-10-17 This book includes peer-reviewed articles from the 2nd International Conference on Trends in Architecture and Construction (ICTAC 2024) held at Chandigarh in India. It explores modernity, sustainability, technology, and education within the ever-evolving architectural landscape. This book echoes a collective dedication to fostering environmentally conscious urban practices. It navigates the symbiotic relationship between technology and architecture, shining a spotlight on the pivotal roles of AI, digital tools, and cutting-edge construction techniques. Beyond the tangible, the publication illuminates the shifting terrain of architectural education, honing in on emerging research paradigms and the integration of innovative pedagogies. Rooted in sustainability, this compendium stands as a vibrant repository of insightful contributions, nurturing an expansive dialogue on the future trajectory of architecture.

New Venture Creation Paul Burns, 2023-12-30 Structured around the author's tried and tested New Venture Creation framework, this textbook encourages practical learning, enabling you to launch and develop your business. Broken down into three phases: Research, Business model development, and Launch, the book provides a systematic approach which tells you everything you need to know and most importantly, everything you need to do to start a new venture. You will learn how organisations and entrepreneurs address issues via real-life case insights and quotes, while fictional case studies are presented to explore how you might choose ways forward in your entrepreneurial journey. The popular and effective Workbook, which enables you to work through your thoughts and ideas on business development and construct a profile of your new venture, is now presented in a digital format. A new Digital links booklet directs to company websites and interviews with entrepreneurs, and these resources are designed so that they can be used concurrently with the book. This edition includes new material on the importance of anticipating new challenges and the need for re-strategizing and building resilience while sustainability and

diversity have been foregrounded in a re examination of the case studies New Venture Creation is the essential textbook for preparing for real life entrepreneurial experience accessible practical and grounded in academic insight *Redefining Capitalism in Global Economic Development* Kui-Wai Li,2017-06-07 Redefining Capitalism in Global Economic Development reconsiders capitalism by taking into account the unfolding forces of economic globalization especially in Asian economies It explores the economic implications and consequences of recent financial crises terrorism ultra low interest rates that are decades long debt prone countries and countries with large trade surpluses The book illuminates these economic implications and consequences through a framework of capitalist ideologies and concepts recognizing that Asia is redefining capitalism today The author Li seeks not to describe why nations fail but how the sustainability of capitalism can save the world Merges capitalist theory with global events as few books do Emphasizes ways to interpret capitalist ideas in light of current global affairs Reframes capitalism via economics supported by insights from political science sociology international relations and peace studies

Sustainability of Young Companies-Contemporary Trends and Challenges Marek Jabłoński,2019-07-11 Ensuring the sustainability of early stage companies and increasing awareness of the need for balancing targets against different stakeholder groups among young companies are not well developed Young companies in the first place want to achieve financial success very often without regard for aspects such as the environment positive relationships with employees suppliers or other stakeholder groups fulfilling requirements of labor law etc Another issue is that of companies whose business models are based on actuarially preferred concepts such as sharing economy sustainable development e comers e commerce renewable energy social media and others A key issue is the resignation of companies from an approach to business based on the foundations of classical economics to the sharing economy Theory and practice seek new solutions in the sphere of value sharing in these new areas of sharing and innovative forms of its implementation Intriguing is the relationship of these business models with sustainability issues as well as wondering how technology can influence sustainability A contemporary approach to consumer value fits in with the assumption of a shared economy It is interesting how it affects the assumptions of sustainability of business The ongoing changes in the value system of potential consumers create new conditions for the design of sustainability business models and creation of innovation

Unleashing the Power of Basic Science in Business Trivedi, Sonal,Grover, Veena,Balusamy, Balamurugan,Ganguly, Abhijit,2024-07-26 Today s fast evolving business landscape has created a significant challenge the gap between basic scientific research and commercial innovation Groundbreaking discoveries in laboratories need to translate into sustainable business solutions The interplay between foundational scientific principles and their application in the commercial sphere is complex making it difficult to bridge the gap To tackle this problem the book Unleashing the Power of Basic Science in Business offers a comprehensive exploration of how basic science can drive sustainable innovation in business By bridging the gap between theory and application this book provides a roadmap for researchers academicians and professionals in
