Paul Scharre,2023-02-28 An NPR 2023 Books We Love Pick One of the Next Big Idea Club s Must Read Books An invaluable
primer to arguably the most important driver of change for our future P W Singer author of *Burn In* An award winning
defense expert tells the story of today s great power rivalry the struggle to control artificial intelligence A new industrial
revolution has begun Like mechanization or electricity before it artificial intelligence will touch every aspect of our lives and
cause profound disruptions in the balance of global power especially among the AI superpowers China the United States and
Europe Autonomous weapons expert Paul Scharre takes readers inside the fierce competition to develop and implement this
game changing technology and dominate the future *Four Battlegrounds* argues that four key elements define this struggle
data computing power talent and institutions Data is a vital resource like coal or oil but it must be collected and refined
Advanced computer chips are the essence of computing power control over chip supply chains grants leverage over rivals
Talent is about people which country attracts the best researchers and most advanced technology companies The fourth
battlefield is maybe the most critical the ultimate global leader in AI will have institutions that effectively incorporate AI into
their economy society and especially their military Scharre s account surges with futuristic technology He explores the ways
AI systems are already discovering new strategies via millions of war game simulations developing combat tactics better than
any human tracking billions of people using biometrics and subtly controlling information with secret algorithms He visits
China s National Team of leading AI companies to show the chilling synergy between China s government private sector and
surveillance state He interviews Pentagon leadership and tours U S Defense Department offices in Silicon Valley revealing
deep tensions between the military and tech giants who control data chips and talent Yet he concludes that those tensions
inherent to our democratic system create resilience and resistance to autocracy in the face of overwhelmingly powerful
technology Engaging and direct *Four Battlegrounds* offers a vivid picture of how AI is transforming warfare global security
