called on in a consultancy capacity In this new book the editors bring together a diverse group of contributors who have worked as Internal Change Agents in organizations to divulge what they really do and think about change The authors draw on their own research work involving change agents and their change interventions and include current reflections on the post Covid world of work and the change required for achieving change interventions successfully Each contribution offers perspectives from real change programmes in both the public and private sector offering a unique opportunity to move beyond theory and understand change in practice The book offers valuable insights for academics and students of organisational change and behaviour leadership and organisational development

the fields of gender studies organizational behavior human resources and labor economics It will be particularly useful for those examining the impact of remote work the future of work organizational culture and the social and economic implications of shifting work practices The chapters in this book were originally published in Culture and Organization and are accompanied by an updated Introduction and a new Epilogue
