Redefining Journalism in an Age of Technological Advancements, Changing Demographics, and Social Issues Johnson, Phylis, Punnett, Ian, 2022-03-18

As audiences are provided opportunities to experience the news through new technological advancements in the field, the very nature of journalism and its conventions will likely be challenged. This book offers multiple perspectives on the future of journalism by analyzing trends in technology and demographic shifts in audience composition through the next century. The book draws upon recent research and speculations by top technological firms as well as leading science fiction writers to provide a compelling portrait of how journalism may operate in the next 20 to 40 years and beyond. The editors offer a groundbreaking view into the future of news consumption and how it will impact newsgathering and reception across the world. The very nature of journalism will likely be received and interpreted within unique communities through innovative and inclusive ways. This book explores the challenges ahead for journalists and media producers in the near and distant futures. Moreover, as in the world, journalists have sought to inform and engage unique communities within the context of their worlds, real and virtual issues relevant to the mainstream have been played out in virtual culture. This book offers a first glance into a mediated future from a journalistic lens.

Redefining Journalism in an Age of Technological Advancements, Changing Demographics, and Social Issues investigates the impact of emerging technologies in journalism and how audiences engage with these technologies and news content in innovative ways. Identity and community are analyzed historically and culturally within the larger body of cultural and media studies. Covering topics such as audience demographics, robotics and immersive journalism, this book is a dynamic resource for journalists, sociologists, politicians, students and educators of higher education, computer scientists, communications professionals, researchers and academicians.

Understanding Religion and Artificial Intelligence Randall Reed, Tracy J. Trothen, 2025-09-15

Is artificial intelligence just another tool or is it something more? Special In *Understanding Religion and Artificial Intelligence: Meaning Making in the Digital Age*, Randall Reed and Tracy J. Trothen delve into this provocative question, revealing how our perceptions of AI are deeply intertwined with age-old human impulses to define the extraordinary. Introducing their innovative Model of the Special, Reed and Trothen illuminate how individuals, groups and cultures dynamically shape AI's meaning, ranging from the mundane to the Sacred and Demonic. Through compelling case studies from AI chatbots, sport and art to self-driving cars and Deadbots, the authors explore how narratives of awe, fear and even transcendence position AI as a truly Special thing in our modern world. Drawing on insights from religious studies, ethics and sociology, this interdisciplinary exploration provides a crucial framework for
