Quality Instruction and Intervention for Elementary Educators Brittany L. Hott, Pamela Williamson, 2024-10-02

Effective teaching starts with quality instruction that most students respond well to. However, about 35% of students will require specialized and more intensive instruction to meet academic and behavioral standards. Both students with exceptionalities who are eligible to receive special education and related services and students who are placed at risk due to circumstance require, deserve, and are legally entitled to quality intervention. *Quality Instruction and Intervention for Elementary Educators* offers an accessible resource for educators interested in evidence-based strategies to ensure all students have access to an excellent education. Two dedicated chapters authored by leading content and strategy experts in the field are devoted to content areas. The first chapter focuses on quality instruction with academic subject matter specialists as lead authors with interventionists supporting. The second chapter focuses on effective intervention with the interventionists taking the lead author roles and academic subject matter specialists supporting. Between the two chapters is a dialogue between the teams of authors bridging instruction and intervention. This unique approach bridges the gap between quality instruction and effective intervention, an often overlooked component of teacher education. The book also includes dedicated chapters on the integration of instructional technology and executive functioning. After reading the book, educators will be able to describe the components of effective instruction and intervention in each of the content areas, access empirically validated materials, and locate resources for continued learning.

Dynamics of Media Writing Vincent F. Filak, 2025-07-22 *Dynamics of Media Writing* gives students transferable skills that can be applied across all media platforms from traditional mass media formats like news, public relations, and advertising to emerging digital media platforms. AI for Teachers MAYA. HART, 2025-09-23

Feeling overwhelmed by endless lesson planning, grading piles of assignments, and trying to keep students engaged in a world that changes faster than you can keep up? You're not alone. Teachers today work an average of 50 hours a week, and studies show nearly 40% of that time is spent on administrative tasks instead of teaching. At the same time, AI is reshaping every industry, with experts warning that by 2030, up to 800 million jobs worldwide could be impacted by automation, including education. If this sounds alarming, here's the good news: AI will not replace teachers, but teachers who know how to use AI to save time will replace those who don't. This book shows you exactly how to stay ahead of the curve while saving hours every week and reigniting your passion for teaching.

AI for Teachers: Save Hours, Engage Students, and Stay Ahead offers a clear, empowering path for educators who want to thrive in the AI era. It combines simple explanations, classroom-ready strategies, and step-by-step AI integration in teaching so you can work smarter, engage learners more deeply, and reclaim your time. Inside, you will discover:

- AI tools for lesson planning and feedback that save you hours every week.
