Making Learning-Centered Teaching Work Phyllis Blumberg, 2023-07-03 This is a substantially expanded and enhanced revision of Phyllis Blumberg's acclaimed and bestselling book *Developing Learner Centered Teaching: A Practical Guide for Faculty* Jossey Bass 2009. This easy-to-follow how-to guide provides faculty with both a thorough introduction to this evidence-based approach to teaching and practical guidance on how to progressively implement it to strengthen the impact of their teaching. It demonstrates how they can integrate learning-centered teaching into their classroom practice without sacrificing content and rigor and how to positively engage students in the process by demonstrating its impact on their mastery and recall of key concepts and knowledge. An added outcome given that learning-centered teaching is correlated with improved student learning is the resulting assessment data that it provides faculty with the measures to meet the increased demands by accreditors, legislators, and society for evidence of improved teaching and learning outcomes. Phyllis Blumberg demonstrates how to use rubrics to not only satisfy outside requirements and accreditation self-studies but more importantly for faculty to use for the purposes of self-improvement or their teaching portfolios. She provides examples of how the rubrics can be used to ascertain whether college-wide strategic plans for teaching excellence are being met for program review and to determine the effectiveness of faculty development efforts. The book includes the following features: Boxes with easy-to-implement and adaptable examples covering applications across disciplines and course types; Worksheets that foster easy implementation of concepts; Rubrics for self-assessment and peer assessment of learning-centered teaching; Detailed directions on how to use the rubrics as a teaching assessment tool for individuals, courses, and programs; List of examples of use classified by discipline and type of course. Phyllis Blumberg offers *Making Learning-Centered Teaching* Course Design Institutes and workshops on this and other teaching and assessment topics. Half-day to multiple-day modules. **Driving Change Through Diversity and Globalization** James A. Anderson, 2023-07-03 This book significantly advances discussion of the mission of higher education in today's multicultural environment and global economy. It sets out the challenges and considerations that must be addressed by administrative leaders, by trustees, and others who shape the vision and direction of the institution but most particularly by academic deans and faculty. The author makes the case that the inclusion of diversity and globalization in disciplinary work contributes to the research agendas of individual faculty and their departments, aligns with scholarly values, and promotes such student learning goals as tolerance of ambiguity and paradox, critical thinking, and creativity. He offers a strategic vision of success backed by theory and examples of effective application for creating transformative change and provides a roadmap to implementing inclusive pedagogical practices and curricula. With implementation dependent on leadership and participation at every level of an institution, everyone with a stake in its future should read this book.
