The Day It Finally Happens Mike Pearl, 2019-09-17 From a Vice magazine columnist whose beat is the future here is entertaining speculation featuring both authoritative research and a bit of mischief a look at how humanity is likely to weather such happenings as the day nuclear war occurs the day the global internet goes down the day we run out of effective antibiotics and the day immortality is achieved If you live on planet Earth you re probably scared of the future How could you not be Some of the world s most stable democracies are looking pretty shaky Technology is invading personal relationships and taking over jobs Relations among the three superpowers the US China and Russia are growing more complicated and dangerous A person watching the news has to wonder is it safe to go out there or not Taking inspiration from his virally popular Vice column *How Scared Should I Be* Mike Pearl in *The Day It Finally Happens* games out many of the could it really happen scenarios we ve all speculated about assigning a probability rating and taking us through how it would unfold He explores what would likely occur in dozens of possible scenarios among them the final failure of antibiotics the loss of the world s marine life a complete ban on guns in the US and even the arrival of aliens and reports back from the future providing a clear picture of how the world would look feel and even smell in each of these instances For fans of such bestsellers as *What If* and *The Worst Case Scenario Survival Handbook* *The Day It Finally Happens* is about taking future events that we don t really understand and getting to know them in close detail Pearl makes science accessible and is a unique form of existential therapy offering practical answers to some of our most worrisome questions Thankfully the odds of humanity s pulling through look pretty good

Guns and College Homicide Stephen K. Boss, 2019-01-28 At a time when mass shootings in schools and other public spaces have become commonplace it might seem surprising that American college campuses are not magnets for murderers but sanctuaries from them Because of remarkably effective gun safe policies deaths by firearms on college campuses are 1 000 times less frequent than in the U S public at large Drawing on crime data submitted in compliance with the Clery Act and public reports of those crimes this study inventories every documented homicide at a U S college or university between 2001 and 2016 making a compelling argument for using gun safe campuses as guides for broader public safety
