**Fatherhood in Contemporary Discourse** Anna

Pilińska, 2017-05-11 This volume offers a variety of perspectives on contemporary fatherhood from analyses of literature film drama and popular culture to issues tackled by psychology gender studies and social sciences Arranged into thematic sections the chapters cover a wide range of approaches to fatherhood including studies and analyses based on fieldwork and interviews with participants Each chapter discusses various culture dependent models of masculinity in relation to the topic of fatherhood depicted in works of literary and film art emphasizing the crucial factors and features which make all these models different from one another and using examples of such cultural contexts as Australia China Indonesia Brazil and Iran With the use of methodological tools provided by literature studies film studies culture studies psychology gender and queer studies and sociology the book is a comprehensive insight into current research on both real life and fictional realizations of fatherhood

The Mystery and the World Maria Clara Bingemer, 2016-05-10 During the past century an enormous effervescence of events changed the sociopolitical configuration of the world The interpretation of these facts helped further deepen the crisis in which modern thought already found itself and it generated the uncertain and unstable environment in which we live today the so called postmodernity late modernity or hypermodernity In this context one of the most profound impacts is most certainly the one on religion During the twentieth century religion proved not to be banished from the human horizon as the masters of suspicion intended Known as the godless century the twentieth century saw also a resuscitation of the search for the sense of life and spirituality With the crisis of modern reason humankind turned toward consumerism and provisional and light practices The last century represents not only the height of the postmodernization process but also the rescue of the transcendent and absolute even if it is an absolute without face and identity It is in this scenario that religious experiences apparently exiled by modern rationality begin to occur and multiply again Mystical experiences will be then the basis for highlighting recurrent characteristics with universal import But they will show a different configuration than before One will be able to find them not in so called sacred spaces but in very secular ones not so much within institutions but at the borders or even outside them not configured by a specific tradition but in an interface that makes more than one tradition meet and dialogue

**Handbook Of The Sociology Of Youth In Brics Countries**

Tom Dwyer, Mikhail K Gorshkov, Ishwar Modi, Chunling Li, Mokong S Mapadimeng, 2017-11-08 Youth are by definition the future This book brings initial analyses to bear on youth in the five BRICS countries Brazil Russia India China and South Africa which are home to nearly half of the world's youth Very little is known about these youth outside of their own countries since the mainstream views on youth and youth culture are derived from the available literature on youth in the industrialized West which is home to a small part of the world's youth This book aims to help fill in this gap The handbook examines the state of youth their past present and permits the development of insights about future The BRICS countries

have all engaged in development processes and some remarkable improvements in young people's lives over recent decades are documented. However, the chapters also show that these gains can be undermined by instabilities, poor decisions and external factors in those countries. Periods of economic growth, political progress, cultural opening up and subsequent reversals rearticulate differently in each society. The future of youth is sharply impacted by recent transformations of economic, political and social realities. As new opportunities emerge and the influence of tradition on youth's lifestyles weakens and as their norms and values change, the youth enter into conflict with dominant expectations and power structures. The topics covered in the book include politics, education, health, employment, leisure, Internet identities, inequalities and demographics. The chapters provide original insights into the development of the BRICS countries and place the varied mechanisms of youth development in context. This handbook serves as a reference to those who are interested in having a better understanding of today's youth. Readers will become acquainted with many issues that are faced today by young people and understand that through fertile dialogues and cooperation, youth can play a role in shaping the future of the world.

**Mayas in Postwar Guatemala** Walter E. Little, Timothy J. Smith, 2009-05-17. Like the original *Harvest of Violence* published in 1988, this volume reveals how the contemporary Mayas contend with crime, political violence, internal community power struggles and the broader impact of transnational economic and political policies in Guatemala. However, this work, informed by long-term ethnographic fieldwork in Mayan communities and commitment to conducting research in Mayan languages, places current anthropological analyses in relation to Mayan political activism and key Mayan intellectuals, research and criticism. Illustrating specifically how Mayas in this post-war period conceive of their social and political place in Guatemala, Mayas working in factories, fields and markets and participating in local community-level politics provide critiques of the government, the Maya movement and the general state of insecurity and social and political violence that they continue to face on a daily basis. Their critical assessments and efforts to improve political, social and economic conditions illustrate their resiliency and positive nonviolent solutions to Guatemala's ongoing problems that deserve serious consideration by Guatemalan and US policy makers, international non-government organizations, peace activists and even academics studying politics, social agency and the survival of indigenous people.
