American Memory Hole Donald Jeffries, 2024-08-27 Donald Jeffries takes another deep dive down the historical rabbit holes with American Memory Hole How the Court Historians Promote Disinformation You will discover how cancel culture was born during the administration of Franklin D Roosevelt And how our interventionist foreign policy was established during the Woodrow Wilson presidency Jeffries documents the tragically common atrocities committed by US troops beginning with the Mexican American War which became official policy under the total war and scorched earth strategy of Abraham Lincoln s bloodthirsty generals He recounts the shocking abuses of our military forces in countries like Mexico Haiti the Philippines and elsewhere Jeffries builds on his groundbreaking investigation into the murder of John F Kennedy Jr uncovering even more evidence of conspiracy and cover up He talked to people no researcher has talked to before in a powerful new section on the assassination of President John F Kennedy Jeffries explores the Kennedy family in general and finds that the establishment especially the Left continues to treat them unfairly The events of September 11 2001 and the Oklahoma City Bombing are investigated in depth as never before There is stunning new information on much maligned Senator Joseph McCarthy who emerges here not as some irredeemable monster but as a genuine American patriot who has been demeaned in death even more than he was in life The reader will never look at the supposed heroes and villains of American history the same way again after reading this book History is written by the victors [The Truth About Diseases](#)
