Synergizing Data Envelopment Analysis and Machine Learning for Performance Optimization in Healthcare Ajibesin, Adeyemi Abel,G., Naveen Sundar,Thangavel, Senthil Kumar,2025-05-02 Healthcare systems face the challenge of delivering high quality care while efficiently managing costs and resources Traditional methods of performance evaluation often fall short when addressing the complex and diverse nature of healthcare operations Data envelopment analysis DEA has been used to measure the efficiency of healthcare providers but its linear deterministic nature limits its adaptability to dynamic environments In contrast machine learning ML can handle complex non linear relationships and high dimensional data offering deeper insights and predictive capabilities The synergy between DEA and ML presents an opportunity to overcome these limitations and drive more effective performance optimization It leads to efficiency assessments through predictive analytics and improved resource allocation with data driven insights and optimizing clinical pathways and decision support systems for better patient outcomes *Synergizing Data Envelopment Analysis and Machine Learning for Performance Optimization in Healthcare* explores the integration of DEA and ML to enhance performance optimization in healthcare improving efficiency care quality and resource management It examines theoretical foundations methodological innovations and practical applications providing a comprehensive resource with a key focus on development of algorithms to address challenges in healthcare optimization Covering topics such as healthcare equipment manufacturing human augmentation and robotic surgery this book is an excellent resource for hospital administrators clinical managers clinical decision makers policymakers public health officials professionals researchers scholars academics and more 2020 International Conference on Applications and Techniques in Cyber Intelligence Jemal H. Abawajy,Kim-Kwang Raymond Choo,Zheng Xu,Mohammed Atiquzzaman,2020-08-12 This book presents innovative ideas cutting edge findings and novel techniques methods and applications in a broad range of cybersecurity and cyberthreat intelligence areas As our society becomes smarter there is a corresponding need to secure our cyberfuture The book describes approaches and findings that are of interest to business professionals and governments seeking to secure our data and underpin infrastructures as well as to individual users *Artificial Intelligence and Business Transformation* María Teresa Del Val Núñez,Alba Yela Aránega,Domingo Ribeiro-Soriano,2024-06-30 This book offers a current perspective on Artificial Intelligence in the context of an ever changing and growing technological revolution in business management It analyses how existing companies are adapting new ones are emerging and others are disappearing Process re engineering has made it possible to reshape organizational structures and create new departments and positions all geared towards digitalization The emergence of new business functions has led to new strategic thinking on e g companies structure size and core business but also to the creation of new jobs the need to cover digital skills and the need for innovative team management In short it is a question of delving deeper into HR and the impact that digitalization has had on it as the employee is one of the key figures to protect

The book initially focuses on providing a review of the current literature on the advancement of Artificial Intelligence and its impact on business transformation and the emergence of new management models. In turn, it addresses the diverse perspectives that currently dominate the business market as well as the corporate transformations that have taken place in the post-pandemic era. Lastly, it equips employers with new tools to incorporate into their organizations, facilitating talent retention. In connection with HR, this digital transformation is reflected in new roles for change management and cultural transformation, including the use of digital technologies to improve the employee experience. In brief, the book offers a practical guide to business transformation, technological advances, and their application in human resources departments.

Emerging Technologies In Sustainable Innovation, Management and Development R. Udaya Kumar, 2025-10-13

ICETSIMD 2025 was conceived as a vital platform for academicians, researchers, and industry leaders. Its primary purpose was to explore the transformative potential of emerging technologies in driving sustainable development. To ensure the high quality, originality, and relevance of the contributions, all submissions to the ICETSIMD 2025 conference underwent a rigorous double-blind peer review process. We received 300 manuscript submissions, from which 100 were selected for inclusion in the conference proceedings. Each manuscript was evaluated by at least two independent experts based on criteria including scientific rigor, methodological soundness, clarity, and contribution to the conference themes. **1983**
